Carnival Plans Discussed at open meeting

A group of 46 people met at Fire Lake Lodge to discuss with the CBA Board members plans & new ideas for the coming Spring Carnival. President of the Board of Directors Ray Tedrow conducted the meeting, which had been preceded by a buffet dinner.

In addition to calling for new ideas, Mr. Tedrow outlined some of the plans which the board members themselves had discussed. This year, additional building is to be held to a minimum, with more emphasis to be placed on decoration and crowd pleasing attractions.

In view of the difficulty in obtaining enough volunteer labor in preparation for the Carnival, the board is contemplating hiring much of this. This decision was arrived at very reluctantly, as this would greatly reduce the profits to be shared. However, unfortunately in the past much of this work has been done by the same few people, some of whom will not be available this year. It is still hoped that the hiring of labor can be held to a minimum, with members of community organizations undertaking various jobs that will need to be done.

One of the items discussed was a Queen Contest, for the purpose of publicity. This was rejected by those present, in view of the high cost of such a program, and the fact that the novelty of a Queen has been very much overdone lately.

A number of suggestions were made concerning a variety of free attractions to be held throughout the three days of the Carnival; such as crowd participation contests, exhibition boxing or wrestling or the setting up of a dance pavilion with a live orchestra.

Motorcycle racing has already been taken into consideration

(cont. page 2 col. 3)

ALL CHUGIAK INVITED TO SMORGAASBORD !!!

Ken Lynn and Floyd Perkins have invited all the residents of the Chugiak area to a Smorgasbord next Friday night, March 27th, at Ken and Perk's Roadhouse at 35 Mile, formerly known as Demings.

Ken and Perk recently opened the popular tavern as a steak house and service station and hope to see their many friends from this area. The two young men are well known here and in the valley, Ken having been the manager of the Piggly Wiggly store in Palmer for the past several years and both boys being active members of V.F.W. Mrs. Lynn and Mrs. Perkins are also Auxiliary workers. Don't forget the date, March 27.

CHEECHAKO DOG RACES SUNDAY - MAR. 22

SPECTACULAR ! FUN FOR ALL !

On Sunday March 22nd there will be Cheechako Dog Races at the Pippel Field at 1:00 p.m. To qualify for these races one must be an adult without dog racing experience. One or a dozen dogs may be harnessed to any sled to enter the event. There will be prizes and fun for all. Even the 'boobie' prize will effectively soothe the miseries and aches of the poor luckless entrant.

A hot-dog, coffee and pop stand will be operated for the benefit of Junior mushers. Parking space is available.

Bring cameras and be at Pippel's field at 1:00 P.M. Sunday.

THE BOROUGH ADVISORY COMMITTEE WILL MEET NEXT WEDNESDAY MARCH 25th, 8:00 P.M. AT THE HOME OF REESE TATRO

FIRE COMMITTEE ROLLING !!

by Dorothy Steeby

The Chugiak Fire Prevention Committee which has been meeting for the past several months is finally ready to proceed with a community fund raising program which, with the support of at least 250 families in the area will put our fire trucks back in working order, heat the present building for one tanker-pumper and the ambulance, and generally get the Fire Company out of the red. More information as to actual expenses will be presented from time to time as it is gathered by the committee.

The present plan is to ask each family to subscribe \$25.00 to the Fire Prevention Board. These funds will be accounted for by the committee and authorized expenditures of the Fire Company will be paid for by a check made by a bonded treasurer and signed by the Chairman, Jim Polyefko and the Secretary, Ray Henrichs.

Over twenty families have already subscribed to this fund. Payments may be made in whole or in part; as little as \$2.00 a month. Subscribers will be the voters who annually elect the Fire Prevention Board. Personal contact with each family will be made but it is to be realized that this will take much time, therefore look for the posters soon to appear in business places in the area where you may file your card and help keep your fire trucks and ambulance rolling.

ARTHUR JOHNSON BACK AT
5040th HOSPITAL

Firemen were called shortly after 4:00 A.M. Sunday to administer oxygen and take Arthur Johnson back to 5040th Hospital when he suffered a second Heart Attack.

MARCH 19, 1959

The GREEN THUMB Corner

TRANSPLANTING OF DECIDUOUS TREES AND SHRUBS

Many of us in clearing the land on which our homes are built found it impracticable to leave the trees and shrubs which are so important to a well landscaped yard. Therefore we find ourselves desiring to transplant either native or nursery grown shrubbery to that stark bull-dozed land.

A number of people are in doubt as to which time of year is the best for such planting.

The extension service says the very early spring, as soon as the ground can be worked is the best time for deciduous shrubbery. This is before the plant has the opportunity to put forth new root growth and before the temperature is warm enough for leaf development.

The location of the plant should be determined and a hole dug that is deeper and wider than the spread of roots. If the soil is poor, good topsoil should be obtained from another source. A mound of good soil should be placed in the hole and the roots spread over it. Then cover the roots with soil and firm so that no air spaces are left.

Native birches should be planted at the depth they are found growing, nursery plants

and other native shrubs an inch or two deeper. In dry soil, water when hole is 3/4 filled with soil. When hole is filled level, tamp to leave a depression to hold water.

Never place fertilizer so that it comes in contact with roots. It is best not to fertilize plant until early July or preferably the following spring. Plant should be watered thoroughly & kept moist throughout the season.

Branches should be pruned to compensate for roots that may have been cut off or damaged.

Shrubs should be thinned and their branches shortened. Broken or weak stems should be removed.

All trees must be supported by staking or using guy wires. Stakes should be driven into the ground before the tree is placed in hole. Guy wires are placed after planting is completed.

Shrubs should not need support unless they are especially large or planted in windy locations.

Remember, don't be afraid to prune, it will mean a stronger healthier plant. On trees, only well spaced branches with wide, strong crotches should be left. These may be cut back further to strong side buds or branches, but avoid leaving stubs.

(CBA MEETING) cont. from page 1)

The main thing stressed, was the need for cooperation from all member organizations and residents of the community.

The "merit system" which has been used in the past for dividing of profits was the most fair and impartial that could be devised, and if it should be found necessary to abandon it for lack of volunteer labor, it would require a Solomons decision to determine which of the Service Groups of the Community are the most worthy and what percentage of the profits (if there are any) they are entitled to.

The board will continue to meet at least once a week from now on, and anyone who has any ideas or suggestions to offer on any phase of the Carnival is invited to attend.

There has been a great deal of interest from outside organizations and groups with regards to obtaining concessions and ground space, so if there are any community groups who have delayed in placing their requests, they are urged to do so without too much delay.

HOMESTEAD 2-5555

by Margaret Milliman

The Firemen's 'little Black Box', our life-link to safety, is inside the small green building that stands at the south end of the Birchwood Loop road 17 Mile.

This 'little Black Box' is the Automatic Conference Circuit that connects you immediately with a dispatcher who will take your detailed information on fire or accident. The dispatcher will pull a run card which will give the Firemen information on what to expect and where to go. The 'panic button' is then hit and ten phones ring simultaneously and continuously until answered, (such as the alarm in a fire house). If someone is using one of the lines a Beep-Beep will be sounded (hang up if you hear it) until the phone is freed. Each fireman answers by calling his name and the run card information is repeated to him until all have received their instructions and are on their way. Thanks to our Firemen's "little Black Box" an accident or fire call can be answered in from three to five minutes, saving life and property.

A great deal of labor and money laid the groundwork for our Automatic Conference Circuit. First the community had to have more than smoke signals or someone running or driving frantically down the road shouting "Fire, Fire!!!!!!" The first step was a door to door campaign to gain stockholder's support and money.

\$40.00 each in a dream, a dream of a safer community with a 'little black box' and telephone where help could be reached in a hurry in time of distress. 400 believed and invested and waited, a long wait, 3 years to wait on a dream with their money in a company that was struggling to be formed. There was more work to do after the money was obtained; Government loans, \$1,200,000. in all; a telephone company to buy out in Palmer for \$30,288.

On December 23, 1953 the Articles of Incorporation were signed and the Matanuska Telephone Association was formed. It took until August of 1957 to get our 'little black box'. The struggle for a practical Valley wide telephone system was almost completed. One step remains to get the universal Fire Number and that cannot be done until the 'little black box' is paid for in full.

SMALL TOWN: Where everybody knows all the news before the paper comes out but takes the paper anyway to see if the editor got the story the way they heard it.

from "Valley Cooperator"

POWER OUTAGE
There will be a brief power outage in the Chugiak area within the next two weeks while a set of regulators is changed at the Reed Substation. The new regulators are a larger size. This outage should last an hour or less, and will be announced over the radio. This will affect the entire Chugiak area.

GRUBSTAKE JOHN

Alaska's Abominable Politician stamped in, his rage of epic proportions. Apparently he had had no interest in modern B Girls until reading a comment in a local paper regarding their alledged 'social service'. His philosophy of "live and let live" was completely ruptured. !!!!! **!&.##
"Who do they think they are bamboozling; claiming the same social status and position in society as the old-time dance hall girls?"
"When in H— did B Girls ever Grubstake a Prospector?"
They're too grabby and penurious to be socially valuable. !!!!!%#& Close 'em up, run 'em out. The synthetic fakes!!!"
Grubstake John thinks that the Bill to Ban B Babes is the only constructive piece of legislation proposed this session.

COOK FOR MARCH
CLEDA STEPHENS

This week we are presenting a group of recipes that Cleda has offered us. The first is a version of that Italian favor- ite, Pizza. It is much sim- pler than some of the recipés we have seen, and is especially good for those who do not care for too highly spiced dishes.

PIZZA

(Makes one large or 2 small)

- 1 pound ground meat:
- Season and cook by crumbling meat and stirring until done.

- MIX 2 cups Biskit Mix with 1/2 cup milk, roll thin, and cover bottom of low baking dish such biskit or pie pan.

COMBINE:

- 6 oz. can tomato paste
- 1/2 cup water
- 1 tsp salt
- 1 tsp crushed oregano
- Dash of pepper

ARRANGE several pieces of good cheddar cheese ontop ofbiskit dough. Place several pieces of Swiss sheese on top of Cheddar. DOT with 2 Tbs. salad oil. SPREADDtomato mixture over che- ese. Sprinkle Meat evenly over the sauce.

ADD a 4 oz can of mushrooms & top with grated Parmesan Cheese

BAKE 20 to 25 minutes in 400° Oven. Serve HOT.

The following recipes will be very timely for those coming picnics and outings this sum- mer. Cleda borrowed these recipes from her Brownie ex- perience, and found them very popular with her family on hunting and fishing trips.

WINTER PLAY-GROUND ON THE SNOW

PETERS CREEK COMMUNITY CLUB MEETING

The students at Chugiak State School will have a vacation March 18 - 20. The reason for the vacation is the teachers convention. The teachers will be learning new things while the children are playing and having fun.

During the conference the educators will have an opportunity to hear two leaders in the field of education. Dr. Arthur E. Bestor, a very controversial figure in educational circles, and Dr. Harold J. McNally. Dr. Bestor, professor of History at the University of Illinois in Urbana, has written a number of articles on current curriculum problems in the schools. His topics are as follows; "Education and Enlightened Citizenship", "The Meaning of Liberal Education", "The Importance of Subject Matter", and "Scientists, Scholars and School Administrators".

Dr. McNally is a professor of Education at Teachers College, Columbia University. He is a member of National Education Association, National Department of Elementary School Principals, American Association of School Administrators, Phi Delta Kappa and Kappa Delta Pt.

Mr. Kirk, a sixth grade teacher, has been working on the playground. Before we had the Hop-Scotch and Basketball court, playground activities were dull, boring, and nothing to do. Children wanted to play basketball but the court had about two feet of snow. Mr. Emmert arranged to have the yard dozed off. After a lot of hard work Mr. Kirk helped the children pack the basket ball court. After packing, he made regular basketball lines with surplus printers ink in water. After that he put sand on the court. Last but not least, he held two basketball tournaments. The breakup will ruin all this but we've had some good experiences experimenting around this year. Next winter we ought to be able to make a good playground layout with the first snow, and then keep it that way all winter.

At the regular monthly meeting of the Peters Creek Community Club Tuesday evening at the Half Way House the annual election of officers was held. Bruce Robinson was elected to be President for the coming year. Other officers are: Favel Halverson, vice-president; Darlene Robinson, secretary; George Ondola, treasurer; and Dallon Oberg, sargeant at arms.

It was decided to participate again this year in the carnival. A permanent log booth will be built this year for the dime pitch with Mr. Halverson in charge of the building.

On Easter Sunday, March 29th, the annual egg hunt will be staged at the gravel pit at 21 1/2 mile.

The Club has cleared and prepared a diamond for a Pont League so anyone interested in sponsoring such a civic project will have a good start.

All residents of Peters Creek area are eligible to be members of the Community Club.

V.F.W. ALASKA'S FAVORITE GAME FRIDAY

Another in the alternate Friday evening Favorite Games sponsored by the local chapter of the Veterans of Foreign Wars will take place this Friday evening beginning at 8:00 p.m. at the Veteran's Hall at 20 1/2 Mile. An excellent choice of prizes is available and the Ladies Auxiliary will serve refreshments.

FRIENDLY NEIGHBORS

The Friendly Neighbor Club met on Wednesday, March 11th at the home of Liz Harriman in Birchwood.

With the Spring Carnival coming up, the participation of the Club was discussed at length. President Phyllis Stewart, reported that the request to operate the "Holy Boley" game had been granted, and the ladies made plans to decorate their booth and to repaint and otherwist prepare the game. It was decided to select three representatives to attend the CBA (next col.)

(Friend.. Neigh.)

meeting at Fire Lake Lodge. Darlene Robinson, Katy Phillips and Rusty Bell-ringer were those designated.

The ladies were happy to welcome back Joanne Lund who had spent several months this winter "outside".

An unexpected treat for the youngsters present was a Birthday Cake for Rodney and Charlie Willis which their mother managed to smuggle to the meeting and produced to the great surprise of those two young men.

The next meeting will be at the home of Ann Head-lough on Wed. 25th. at 1:30 PM. *****

CHUGIAK GIRL SCOUTS PARTICIPATE IN CEREMONY

Girl Scout and Brownie troops from the entire Chugiak area participated in the annual "Faggots for Friendship" ceremony which was held at the High School Gymnasium on Romeg Hill Sunday March 15th. At this affair the girls bring symbolic "faggots", which are contributions of money rolled to resemble small twigs or faggots which are presented to the Juliette Low World Friendship Fund, which helps to promote Girl Scouting the world over.

Participating was Girl Scout Troop 54 from Peters Creek, with Connie Johnson acting as Faggot Bearer, and Pat Cates bearing the Troop flag; Brownie Troop 56 from Peters Creek, with Linda Straight the faggot bearer and Sandra Fetrow the flag bearer. From Eagle River, Girl Scout Troop 120, with Dorothy Gay the faggot bearer and Sharon Ann Moyer the Flag bearer; and also, from Eagle River, Brownie Troop 169, with the Faggot bearer Beverly Johnson, and Hazel Vincent bearing the troop flag.

Over thirty girls from this area attended this ceremony. This year the subject of the program was Frontiers, with our own Alaskan history from the time of the Russians to the final achievement of Statehood as the theme. It was a very timely subject and girls and leaders alike were very much impressed.

DOG RACE RESULTS

Last Sunday's Dog Races for the Junior Mushers drew a large crowd to Fippel's Field. Winners and their elapsed time were as follows:

Mike Stephans	40:44
Bruce Pettit	41:45
Gary Merrill	44:35
Wade Charles	45:21
Pat Stephans	46:45
James Hope	51:25

The long list of donors for the prizes for this race included Crankshaft Service of Anchorage, Farrels Candy Shop, Mr. Delemeter, Mr. & Mrs. Chet Dutton, Mr. & Mrs. Ray Coates, Mr. & Mrs. Tony Charles, Mr. & Mrs. Wilford Charles, and Mr. & Mrs. Charles Carter.

Dog sled rides were given by Junior Mushers which netted them \$40.00. The Cheechako Race will be held this coming Sunday, March 22nd and weather permitting, another Junior race will be run on Easter Sunday, March 29th.

Interest of the citizenry of Anchorage as well as Chugiak in the competition for young mushers has made the effort to stage the races well worth while for all concerned. Plans are being considered to start the races earlier next year.

Page 8

SHOPPING in CHUGIAK

Chugiak always has been the community of do-it-yourself homebuilders. In summers it has been the case of hurrying home after work to take advantage of the long hours of daylight to get the house built, and in winters it was time to do the inside finishing. However many can remember the days when precious hours were lost just because running out or material meant a 50 mile round trip to Anchorage after supplies.

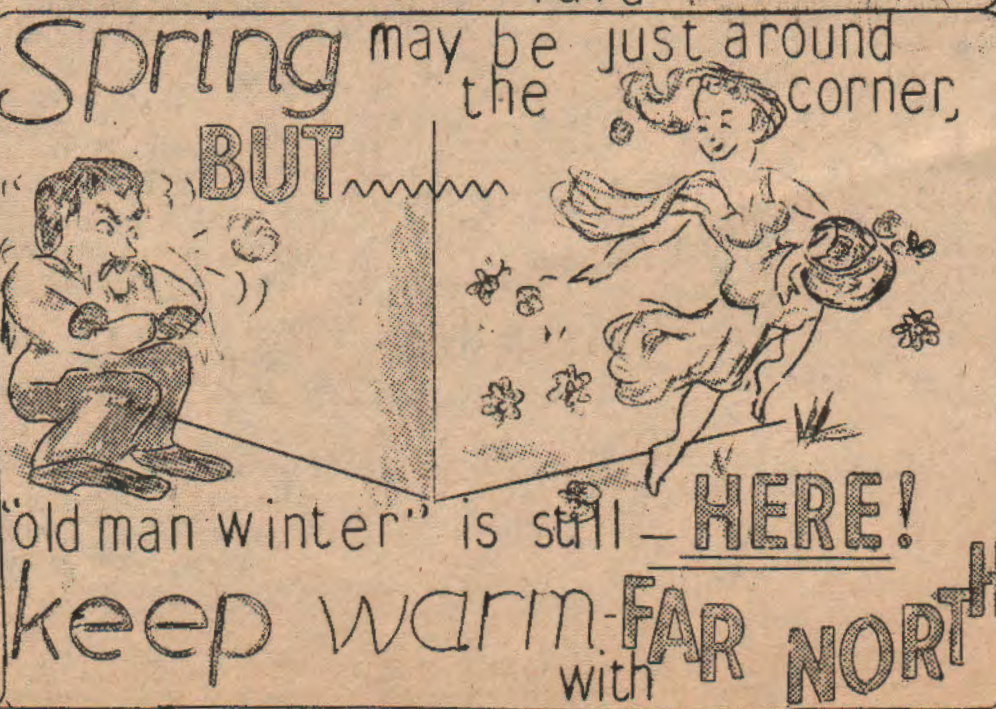

Now we are fortunate to have in our community a completely stocked lumber yard, where anything from lumber, to insulation, to the finishing hardware is available.

THE BIRCHWOOD BUILDING MATERIAL YARD, located at mile 18½, next to Moose Horn, has a complete stock of building materials. In addition to the large stock of finished lumber and other material on hand, they can order any special supplies that you might need, and have them available in a minimum of time.

For those who do not have a truck or other means of hauling lumber, deliveries can be arranged. A call to HO-2-5175 is all that is needed to place an order for any building supplies.

FOR ALL your Building NEEDS
BIRCHWOOD Building Material Yard HO-2-5175

Spring may be just around the corner, BUT "old man winter" is still **HERE!**
keep warm with **FAR NORTH**

CHICAGO CORONER'S JURY MAKES RECOMMENDATIONS:

The special jury impaneled by Chicago Coroner Walter McCarron, following the recent Our Lady of the Angels School fire, has made 21 specific recommendations concerning Chicago's school fire safety and, in addition, suggested nine "recommended good practices".

The recommendations include:

1. Install approved automatic sprinklers in all schools and equip systems with water-flow detectors and alarm devices.
2. Enclose all vertical passageways with incombustible construction.
3. Remove all over-door transoms or replace transom glass with wired-glass and nail shut.
4. Install automatic-operating building alarm systems which will alert school occupants and the fire department.
5. Extend public fire alarm system to all schools.
6. In locales where there is no city fire alarm system, a conspicuously marked alarm control or a fire telephone should be placed at the school entrance and connected directly to the fire department over leased telephone lines.
7. First-alarm apparatus and manpower response to all school alarms.
8. Enforce Chicago fire prevention code relating to proper number and correct type of approved fire extinguishers properly distributed in schools.
9. Subdivide hallways over 300 feet in length by swinging smoke barrier doors.
10. Make it illegal to block or wedge open any fire safety doors.
11. Convert gas lights used for exit indication to electric type.
12. Install automatic heat or smoke detection units on intake of exhaust fans and discharge of air supply fans.
13. Prohibit nailing of screens over school room windows.
14. Limit school room occupancy to 20 square feet per pupil.
15. Correct all fire hazards even though not specifically covered by ordinance.
16. Train school personnel in fire safety.
17. Require monthly fire drills without advance notice.
18. Provide proper waste paper disposal.
19. Require that all exit doors open in direction of travel.
20. Cover all combustible trim and acoustical materials with fire-retardant paint.
21. Provide that all legislation relating to fire safety in schools be made retro-active.
