NEITHER DOWN NOR
OUT

The recent resignation of the
board of Directors of the Chug-
iak Fire Prevention Associat-
ion has led to the rumor that
the Chugiak Fire Co is also
breaking up.

The later is as far from the
truth as it could possibly be.

This particularly tough and
stubborn group of individuals
has no intention of deserting
the residents of Chugiak, de-
spite the lack of encourage-
ment and cooperation they have
received.

The Chugiak Volunteer Fire
Company existed for a number
of years before the Fire Pre-
vention Association was form-
ed and intends to go right on
existing even though the CFPA
no longer does.

The purpose of organizing
the Fire Prevention Associat-
ion was to attempt to relieve
the burden which the business-
men of Chugiak had assumed,
namely that of giving what fin-
ancial support they could to
the Fire Co. and distributing
it evenly on the population of
the community.

The failure of the Fire Pre-
vention Association to accomp-
lish this in no way reflects
(next col.)

(editorial)

on the efforts of those
who served on the board,
but merely means that the
Fire Co. will have to find
some other way of raising
funds.

However, there is no
doubt that they intend to
do so, and that they will
eventually accomplish their
ends.

Those who have been sub-
scribing to fire protection
in the past, are assured
that they will continue to
receive it, and that the
Chugiak Volunteer Fire Co.
has been around too long to
let one small set-back
bother them very much.

LETTER TO THE EDITOR:

"...The press states that
we are the lowest taxed
state in the union, per cap-
ita wise. Lets keep it
that way. There is no bet-
ter drawing card for out-
side capital.

The bond issue of 40,000,000
plus interest, with only
two years of statehood would
scare away any sane invest-
ors.

Our university is our ideal
and the needs must be taken
care of, we all know that
burroughs will be set up dur-
ing the next session of the
legislature, and state sup-
ported schools (of which Chu-
giak is one) will be very
few. We will go into an
Independent School District
and will be taxed for (next col.)

(letter to the editor)

the school operations, thus re-
leasing the state of millions
of dollars annually which could
be used to build a new univer-
sity within a few years.

If the bond issue carries, our
next legislature, which will
set up the burroughs, will have
to set up and exact into law a
rate of taces that we will have
to pay to retire the bonds.

All of this will be done at
the same session, therefor there
will be millions of the present
tax dollars that can be used for
the University and will be ready
as soon as the fund could be got-
ten from the Bonds.

Why vote a Bond Issue when it
will hasted the money and keep
outside investors from coming
here.

All of our political leaders
say that ourside capital is our
gratest need and we all know
that with high taxes and bond
issues we'll scare them away.

For our community sake, vote
N O on all of the bond issues.

POEM FOR THE MONTH:

SOMETHING TOLD THE WILD GEESE

Something told the wild geese
It was time to go.
Though the fields lay golden,
Something whispered "Snow!"

Leaves were green and stirring
Berries luster-glossed
But beneath warm feathers
Something cautioned "Frost!"

All the sagging orchards
Steamed with amber spice.
But each wild breast stiffened.
At remembered ice.

The Cook of The Month

Anyone who drops in at the Chugiak Post Office or at the Chugiak Library will recognize our cook for November.

Dorothy Jonrowe spends every morning at the post office where she works as a postal clerk, and on Thursday afternoons she dashes over to the library where she is one of the volunteer librarians.

Dorothy and her husband Roger came to Chugiak in 1957, but they were no strangers to Alaska at that time. Their first home in this state was at Willow, where they lived from 1947 to 1954 while Roger was employed as a railroad agent.

Although (like many of us) the Jonrowe's were childless when they came to Alaska, it wasn't long before Richard and then Michael were born.

When Richard became old enough for school, they left Willow to return to their home in Buffalo N.Y. where they had met in Junior High School.

They returned to Alaska to make their home in Chugiak while Roger went to work at the Ft. Richardson Power plant (next col.)

COOK FOR NOVEMBER
DOROTHY JONROWE

Dorothy has the right background for the two activities which consume most of her spare time.

She was Assistant Medical Records Librarian at Mercy Hospital in Buffalo N.Y. for three years prior to coming to Alaska, and while living in Willow, she assisted the Postmistress and acted in her place while she was absent.

Dorothy says that she has little need for many hobbies as she truly loves to cook and keep house, however she is an avid reader whenever she finds the time and has a yen to do creative writing.

In the summer the whole Jonrowe family become baseball fans, with Roger acting as coach, Richard playing and Dorothy and Michael in the cheering section of Chugiak (next col.)

Little League team.

Next year, Roger will begin coaching the pony league as Richard, now 12 years old will be playing.

Dorothy says that she finds all her spare time activities are those which concern her children, such as acting as a room mother and a member of the Health Council. Whenever the Jonrowe family have the time they like to run up to Willow where they still have a number of friends.

The recipes which Dorothy has offered us are some especially fine ones, and reflect her love for her family and the joy she takes in preparing tempting meals for them.

due to heavy snows. In some areas, the polling places are located off the highway and Highway Division equipment is the only equipment available to remove snow.

"Of course, our primary concern if a storm hits on Election Day will be to clear the main highways so rural people can get to the polling places, but if a polling place becomes blocked by snow, the highway forces will assist with the snow removal." Myers said.

"In most instances, if we can keep the highways open, the voters will be able to drive within easy walking distance of the polls.

If not, we will do our part to see that as many as possible are given the opportunity to vote."

The overcrowded school buses and the shortage of classroom space were both mentioned.

It was brought out that even with the construction of the new school at Eagle River, there will still not be enough classrooms to hold the present school enrollment without the use of temporary buildings.

REPORT FROM CHUGIAK VOLUNTEER FIRE CO.

This is the 2nd in a series of statements from Chief Fred Hahn of the Chugiak Fire Co.

"There has been much discussion about a Fire Company. The Chugiak Vol Fire Co. is an organization called a company. Company in this sense being the basic unit of a Fire Cept. It is used both in the United States and Canada under the platoon system which may range in size from eight to 24 men. (next col)

(fire Co.)

A company normally has one or more major pieces of apparatus, although in a small community, such as Chugiak, a single Company will operate all the apparatus housed in their Fire Station. There are some pieces of apparatus such as rescue or salvage trucks which may be manned by two or more men.

The standards for distribution of Fire Companies usually is determined by the conditions of the community, taking into consideration the number of hose streams likely to be required, availability of manpower, the accessibility of various parts of the community and frequency of alarms.

Two effective hose streams is the minimum requirements for scattered residences. A dozen or more streams for large fires in unsprinklered mercantile or institutional properties. In small communities, normal response should be two pumpers which permits at least one to arrive in case of accident or delay to the other, and an attack from two directions if they both arrive (cont page 9 col 3)

for a moment in the car while her mother ran into the house of a neighbor Mrs. Charles Harriman.

Fortunately the cries of the child were heard by her mother and Mrs. Harriman who dashed out and managed to overtake the slow moving car and stop it just short of the cliff.
