## Doctor Loses Race With Stork

The stork beat the doctor by a good ten minutes, last Wednesday, and little Donnalisa Annette Jones came into the world with the assistance of her grandmother and a neighbor.

When Mrs. John L. Jones of Scenic Drive in Birchwood, became aware of the bird's impending arrival, she summoned Dr. Marshall Simpson of Eagle River. However, things began happening rather rapidly, and Mrs. Jones asked a neighbor, Dan Jensen to drive her to the home of her mother Mrs. I.M. Pessington at mile 21. There, Mrs. Pessington and Jensen delivered the baby.

This was Mrs. Pessington's first experience in this sort of thing. Jensen had once before acted in a similar emergency when he helped deliver a baby to a missionary's wife on a ship bound for the Orient.

Mrs. Jones has six other

## Bowling Alley Planned Here

A group of local residents is busily laying the ground work for the construction of a bowling alley to be located somewhere in the Chugiak area.

This group, headed by Wes Mickey, Dick Hannen, Roger Jonrowe and Lucille Fly are at present promoting the sale of stock at \$1,000 per share.

Mickey, one of the originators of the scheme, said that a deadline of April 15th has been set, at which time pledges for a minimum of 65 shares must be made. Mickey stated that there are already 35 pledges.

The group will incorporate under the name of either Chugiak Lanes, or Chugiak Bowling Association.

Mickey also stated that the building will be erected on a site yet to be decided upon, but that several were under consideration. The location will be somewhere between mile 22 and Eagle River.

Construction will begin as soon as weather permits, and it is expected to be completed by fall.

Anyone interested in purchasing stock, may receive further information from Mrs. Fly at the Knik Knak Shop, or by calling Mickey at HC-2-5262.

Mickey suggested that in cases where several parties might pool their funds for the purpose of purchasing a share, it would be permitted.

**FIVE CHUGIAK ROADS MAY  
LOSE FEDERAL AID**

Five Roads in the Chugiak  
area have been classified  
as roads to be dropped from  
the Federal Aid Highway  
System.

Two are Secondary "A" Rout-  
es, the Eagle River Road and  
the Birchwood Road; and three  
are secondary "D" routes, the  
Eagle River Loop Road, the Fire

the Birchwood Spur. Two sec-  
ondary "B" routes in the vicini-  
ty of Chugiak which will also  
be dropped are the Klutna Lake  
Road and the Klutna School  
Road.

This was determined following  
a study asked by the 1960 Leg-  
islature by the Alaska Dept. of  
Public Works which presented in  
the 1961 session with a 32  
page report suggesting a possi-  
ble reclassification of the State  
Highway system.

The study was asked in a res-  
olution enacted last year look-  
ing toward the "severe short-  
age of available State funds  
for maintenance, for matching  
Federal aid appropriations and  
for administration which could  
result at the end of the transi-  
tional period if proper plan-  
ning are not followed..."

The Dept. report is based on  
the premise that Federal aid  
should be spent on a bar-  
network which will attract

Now, please don't get us wrong, we want you and everybody else to make use of the telephone...that's the only way we can stay in business.

commendation pending establishment of local government organizations to assume maintenance responsibilities.

The report suggests that these roads be placed on a State-Local cooperative system under which the State would cooperate and contribute to the extent required during a transitional turn over of responsibility to local entities. Future additions to the State highway secondary system would be made from these roads.

Downing emphasized that the report should not be considered "firm and final".

By reason of regulations governing the Federal aid highway program as well as provisions of the Alaska Omnibus Act, he said it would be necessary to obtain approval of the Bureau of Public Roads before any change is made in the existing system.

Neither, he said, could the various changes proposed be undertaken until some form of local government is organized and financially capable of maintaining the existing roads which would be dropped from the Federal system.

"We are", he said, "presenting here a general plan which may take several years to accomplish."
