YOUTH PLUNGES OVER CLIFF

BIRCHWOOD SEEN AS HIGH SCH. SITE

BIRCHWOOD: An area located on the Birchwood Road approximately one mile from the junction with the Glenn Highway at mile 17, has been recommended as a site for Chugiak High School.

Wayne Hull, chairman of the Advisory School Board stated that although this land is presently under Federal control and classified as a Forest Reserve, steps can be taken to reclassify it.

Hull said this is the best site of all that have been considered in the community.

Hull recently conducted an aerial survey of the entire community in an attempt to determine the most desirable location.

He felt that the site in Birchwood appeared to be the best when viewed from the air, and subsequent investigation of ground parties confirmed this.

The site has been recommended to the State Department of Education for their further approval.

EAGLE RIVER YOUTH INJURED IN WRECK

FIRE LAKE: A sixteen year old Eagle River boy escaped with only minor injuries, following a wreck which occurred at mile 16 last Thursday evening.

EKLUTNA: Fifteen year old James Gardin of Anchorage escaped death and injury following a plunge down a fifty foot cliff to the frozen waters of the Eklutna River last Saturday.

Gardin and his companion 15 year old Mike Smith, also of Anchorage had been hunting in the area of the old Eklutna Dam, when Gardin decided to investigate a ledge on the bank of the river. He slipped and fell a few feet down the steep bank. Smith

was attempting to help Gardin back to safety when the boy again slipped and fell the rest of the way down the gorge to the river.

When Smith perceived from Gardin's signals that he was unhurt, he attempted to walk out and get help.

Darkness came over Smith before he was able to make his way out to the highway, and he became lost in the vicinity of the Thunderbird campground.

His cries for help were overheard by Robert Forrest of Spenard who was hiking in the area, and he led Smith to the highway and they both drove to the Peters Creek Shopping Center, from where the State Police were summoned.

Smith and Forrest returned to the river along with Herman Chilligan an Eklutna native who is employed at the Peters Creek Shopping Center. Along the way they were joined by two military men, SP4 David Moore and PFC Ed Marrat of Fort Richardson

CIVIL DEFENSE ACTIVITIES

CHUGIAK: Ed Willis, Public Information Officer for the Chugiak Civil Defense District appealed to the men of the community to turn out for a work party this coming weekend.

Willis said that even an hour of work at a time would be of that much help.

Plans for the weekend are to strip the inside of the Quonset in preparation to installing bracing, and to move a second Quonset on to the property to be used for meetings and training.

The work party will report to Civil Defense Headquarters at the site next to the Chugiak School.

At the regular Monday meeting a film was shown on Radio-logical Defense. It was highly informative, and dealt with Fallout and Fallout Hazards on a National Scale as well as at the community level.

The film pointed out that

CHRISTMAS LIGHTS

We have had numerous inquiries as to what has become of the annual Christmas lighting contest which was conducted throughout this community in the past. For the last two years there has been no such contest.

This contest was sponsored by the Chugiak Ladies club.

The group voted to abandon this contest due to the lack of participation by residents.

It was not that Chugiakans did not go in for festive outdoor lights and decorations.

It was just that even some of the most creative people were reluctant to enter their displays in the contest.

It has been thought that perhaps a different set of rules might encourage more participation.

The Ladies Club required the filling out of entry forms and the payment of entry fees. The purpose of the fees was to provide prizes for the winners.

It has been thought that if one or more organizations or individuals would be interested in donating the prize mon-

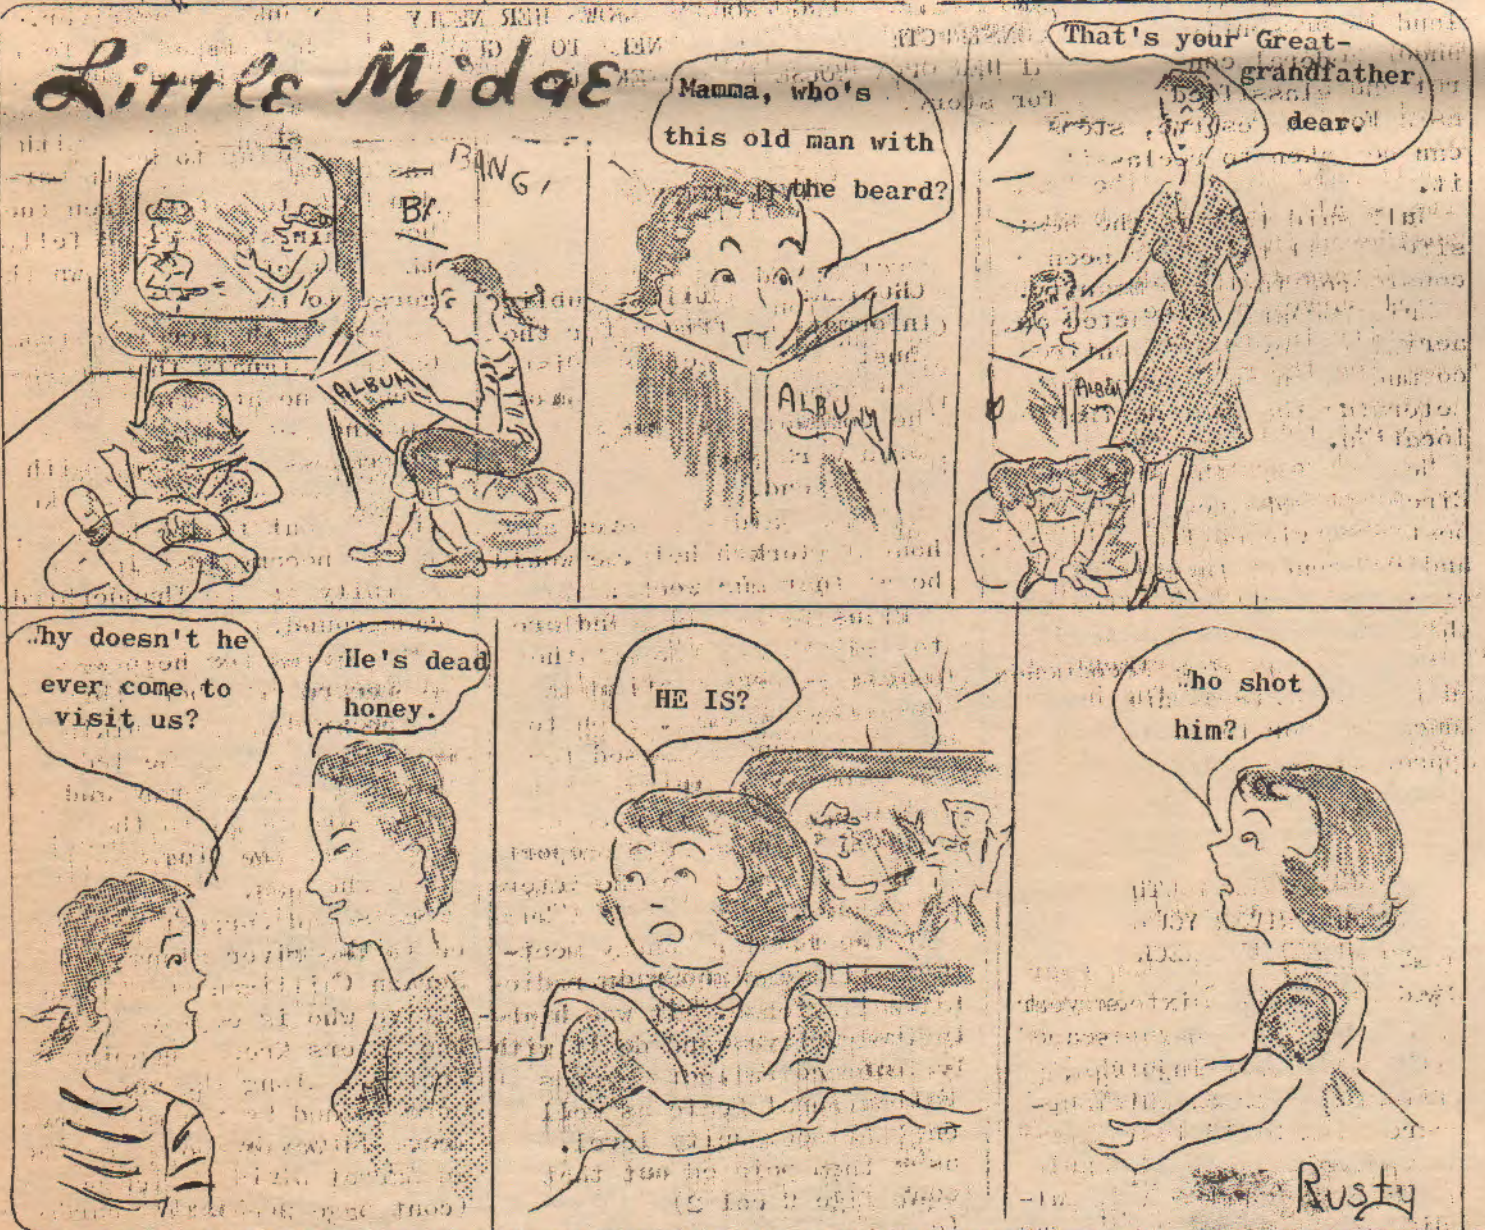

ey, then formal entering might be eliminated and the judges could then merely tour the community and judge existing lighting displays.

In the past displays were separated into three groups, private residences, commercial displays and Churches or civic groups (i.e. schools, clubs etc.)

This is a very worthwhile project, and the Courier would be willing to assist any group of individuals or organizations that might be interested in reviving the contest.

Lets hear from some of you readers, no doubt there are some excellent ideas to be found, and this would be an opportunity to rekindle the lights of our own particular "Santa Claus Lane."

When you're "Driving home for the holidays," check your car, check your speed, and You'll check accidents, declares the State Police.

TIPS FOR MILADY

Do you have trouble in remembering which bedsheets are which on your shelf?

Do you find that you have to unfold the sheets to tell whether they are fitted, single or double?

Then make tiny flags of colored cloth or paper, and code them to represent each type of sheet that you own. These may then be fastened to the folded sheet with a straight pin, and you can identify the proper type at a glance.

Tell it to Martha!

By MARTHA COUNCIL

Dear Martha,

I wish you could tell me an easy way to solve this problem.

Quite some time ago, we were invited to a party for a mutual friend. My friend and I decided to pool our money and get her something a little nicer. Since I was the one going to town, I said I would buy the present and she agreed to pay half.

Well you can guess what happened. She never gave me the half. I am sure she has only forgotten, but I can't for the life of me bring myself to ask her for it. I have tried hinting, by mentioning the gift we brought our friend and how pleased she seemed to be with it, but this didn't seem to remind her that she hadn't paid for her half.

How can I get my money without asking her for it?

Shy one

Dear Shy One,

What's the matter with asking for it? I am sure your friend has only forgotten, and if you don't remind her I doubt if she ever will. Some people don't even pay their taxes without a reminder. However, if you shy away at flat out asking for your money, why not do it this way.

The first opportunity that you have, "discover" that you are short of cash and ask her for a loan. By

a "coincidence" the amount you need to borrow will be slightly more than the money she owes you.

In a few days, offer to return the loan, and say casually, "Here's \$1.50, with the amount you owe me for so and so's present that should make us even".

Sincerely,
Martha Council

SIGNS MUTILATED

CHUGIAK: State Police are seeking information as to the ones responsible for the theft and mutilation of a group of signs at the junction of the Glenn Highway and Birchwood Road.

The signs ranged from ones advertising several business on the Birchwood Road to a sign indicating the location of the Isaac Walton Range and the one at the Entrance to the Carnival Grounds, the latter two being missing entirely.

A speed limit sign was pushed over and a sign at the entrance to the Birchwood Baptist Church was also pushed over.

Also a small building which was used by school children to wait for the school bus was overturned.

Juveniles appear to be the ones responsible for this, possibly the same group that had damaged some of the same signs on Halloween night.

DEMO'S TO HOLD CAUCUS

BIRCHWOOD: Fire destroyed a storage shed and adjoining well house last Friday.

The buildings belonged to army Sgt. Wilber L. Daniels, who lives on the Birchwood road near the Glenn Highway.

Fire equipment from both the Eagle River and the Chugiak volunteer fire Company's responded, but were unable to save the property.

In addition to personal property in the shed, the water pump and miscellaneous radio gear were destroyed.

Damage was estimated at \$3,000.

Daniels carried insurance, but it is not known whether or not out buildings were covered in the policy.

Faulty wiring was believed to be the cause of the fire.

The pack has been carrying on under the capable leadership of Cubmaster James R. Morrison and Assistant Louis B. Edwards.

An organizational meeting was held at the Morrison residence on Nov 4, and following were appointed to pack officers.

Additional committee members are being sought. The pack serves a large area and there are a great many more boys who could enjoy the advantages of cubbing with the help of more parents.

The first game between the Rams and the Huskies will be on December 6, 1962.

After that there are many more games scheduled throughout the year.

OUR CLASS TOURS THROUGH THE NEW SCHOOL

On Wednesday, Nov. 14, our class took a tour of the new rooms that are being added to our Eagle River school.

Mr. Halverson led us on our tour and the first room we saw was the school library.

The library is already equipped with shelves to hold the books. One side of the library has a huge window that serves as a wall between the library and a classroom.

We then went on and saw a wall made like an accordion and called a folding partition. It separated two classrooms. The two classrooms can be made into one large room.

In one of the rooms there were two heaters and Mr. Halverson called one a fresh air heater and the other a stale air heater.

One heater was located up near the floor and the other was up near the ceiling. One takes out the stale air and the other one brings in the fresh air. It is important to the students that they have fresh air in the classrooms at all times.

A large fan is installed in the hall that is used to circulate the air. There are two large bathrooms, one for the girls and one for the boys. We saw many men working and they still have lots of work to do before our school

will be finished. It was fun going through the new school rooms and I am sure it will be a real nice school.

I will be happy and proud when it is finished and I hope my class will be able to move into a new classroom when the construction is completed.

The actual rescue was effected by Chilligan and Forrest who made their way to the river at a point downstream from Gardin; and after tying themselves together with a rope for safety, they walked the ice up to the boy.

They then fastened the rope to Gardin and the three walked upstream to a point where they could make their way up the bank.

Gardin was unhurt and appeared to be suffering only from cold and fatigue following his four hour ordeal.

Although their assistance was not required, members of the Fort Richardson rescue group also responded.
