LOCAL ELECTION RESULTS

CHUGIAK HIGH SCHOOL ASSURED

By Dale Pierson
Chairman, OCHS

Yesterday, November 6, 1962 Alaskan voters approved a bond issue which included \$1,200,000 for construction of a High School in the Chugiak area.

Two years ago a petition was circulated by the Chugiak PTA pointing out among other classroom requirements the need for a High School in this area. Between these two related events, enough action took place to fill a very large book.

Many hours by many people has spread the name "CHUGIAK" throughout the length and breadth of Alaska. Although the successful culmination of all these efforts is a High School for this area, an interesting by-product developed.

PTA GROUPS TO MEET

CHUGIAK: The Parent Teacher Associations of both the Chugiak and Eagle River Schools will hold their monthly meetings on Tuesday, November 12th each in the multi-purpose room of the respective school at 3pm.

Guest speaker at the Chugiak PTA will be Major Klitch Battalion officer of the 4th Missile Battalion, who will address the group on "The Nike Hercules Missile."

It is felt that this will be a most timely subject, since the 4th Missile Battalion will be firing from site summit beginning the week following.

whatever disappointment we may feel that a favorite candidate did not get elected, or some other pet item did not pass; this is Chugiak's own personal victory.

There still remain many problems to be solved, but it looks promising that the slogan of "OCHS by 1963" may well be our victory cry.

As this issue of the Knik Arm Courier goes to press, the results of the election are in many cases still up in the air.

This election has turned out to be a real cliff-hanger, with the voters and candidates really getting their money's worth this time.

One issue, thank heaven, seems be certain, Proposition #2 has passed, and we will get our High School.

THE COOK OF THE MONTH

When our cook for November talked her family into a vacation trip to Alaska, she frankly admits that she had a longer stay in mind.

The fact that she won out is evinced by the fact that the Wes Newton family are still residents of our community.

Fran Newton tells us that they arrived in a camp trailer from Oregon in the summer of 1957.

Since they could find no place in Anchorage where they were welcome with their two children and two large dogs, they camped at the Peters Creek Camp Ground.

There they met the Jack Brittain's who were also newcomers that year.

Together the two families investigated some Birchwood homesites they had heard about, and are neighbors to this day.

To begin with the Newtons threw a lean-to against their camp trailer, where they lived for several years.

Now they have moved into their lovely new home, which is one of the few in the community that is complete with fall-out shelter.

The two Newton children are now aged 18 (Jeff) and 16 (Eileen).

Although Fran claims she is not the "clubby" type, and belongs to no local organizations, she has made many friends in Chugiak, and many will be happy to learn that she is our Cook of the Month

Tell it to Martha!
BY MARTHA COUNCIL

Dear Martha,
We are sisters nine and eleven years old and we need you to help us. We have a little brother who is only four.

While we are away at school my mother lets him play with our stuff.

He wrecks our toys and books and makes our room a mess.

Would you please ask our mother to make him keep out of our stuff?

yours truly
Flo and Jo

Dear Flo and Jo's mother,
Your daughters have a legitmate gripe. You should insist that your son respect their property while they are at school and unable to protect themselves.

If the girls have a room of their own, as they intimate, I recommend that you purchase a lock for it, and let them keep the key.

Sincerely,
Martha Council

Dear Martha,
I have been accused by one of my neighbors of listening to her conversation on the party line and then spreading the story around the country.

This is not true. I do listen to the party line,

but I have a good reason. I have no TV to watch or a car to get out and visit with and I am terribly lonely.

The party line is the only recreation I have, but I swear I would never repeat anything I heard, I am like a priest.

The story must have got out some other way. How can I convince them that I am innocent?

Wronged

Dear Wronged,
I am appalled at your form of recreation. If your neighbors are aware of your hobby, I doubt if anything you could say would convince them that you are innocent.

As far as I am concerned you are not innocent, you are guilty in the most brazen invasion of privacy I have ever heard of.

I hope that you will find some other means of amusement before you find yourself in serious trouble.

No one has the right to make themselves a self-appointed keeper of their neighbors secrets.

Sincerely,
Martha Council.

The road has been rough at times, but the final victory is attributable to the many people who helped, each in his own way, to making this victory a success.

SCHOOL C.D. PLANS REVEALED

CHUGIAK: Chuck Smith, superintendent of the Chugiak School system, revealed the plans which will be followed at both the Chugiak and Eagle River Schools in the event of a nuclear attack.

Plan "A": In the event of only a flash or loud sound as a warning, students will be instructed to "Duck and Cover", and get under their desks.

In the event of an imminent attack of 10 minutes warning, students will be directed to school halls.

Plan "B": If the warning is 15 minutes or more, walking students would be directed to proceed immediately to their homes and stay there if their parents are not at home. Under this plan, parents are advised to instruct their children as to the shortest route they should take to their home.

They also should give them alternate instructions as to what to do if parents are not at home.

Bus Students will proceed to halls of the school to await further directions.

PLAN "C": If the warning is 1 hour or more, under this

(next col.)

(C.D. plan)

plan, walking students will be dismissed immediately and should follow the same directions as for plan "B".

Regular transportation will be provided bus students.

Bus students would be held in readiness for the regular schedule which would start as soon as possible.

The transportation route would operate on the identical school to home routes, with less stops and some short-cut routing.

The above instructions are subject to change.

In the event shelters are provided or new Civil Defense plans are received, new directions will be issued at once.

NO TRACE OF MISSING HUNTERS

SEWARD: Search planes last weekend, still failed to find any trace of the two Eagle River hunters, Bernard Vaverka and Leonard Ivie who have been missing since last month in their light plane.

Local pilots, along with a number from Seward and Anchorage have been combing the area where the men were last seen.

Local pilots who have participated in the search are Ken and Roe Huling, Chet Dec, Tom Arthur and Harry Whitman.

The search will continue when and for as long as the weather will permit.

the Chugiak School is making rapid strides, it was reported. Ground has been cleared, and preparations are being made for the experimental burying of a quonset hut. Bill Garrison of Birchwood has volunteered his services as a housemover using the equipment belonging to Ralph Doyle to move the quonsets. The first quonset, the one which will be the pilot model has been removed from the grounds of the Peters Creek Community Club.

Robert Mensing of Birchwood a civil Engineer has offered to draw up methods of reinforcing and bracing the quonsets.

Benito said that once a successful means of burying the quonsets has been devised, plans for constructing a similar shelter at the Eagle River School will be formulated.

The staff officers will meet again at the multi-purpose room of the Chugiak School on Saturday at 7:30pm.

a 1950 GMC Panel truck driven by Henry P. Marks of mile 22 in Peters Creek.

Ramsy was taken to the 5040th AF Hospital in an Air Force Ambulance, where he was treated for minor head injuries and released. His passenger, Ida Cabinboy age 19 was taken to the U.S. Public Health Service Hospital for observation of head injuries.

Marks, who received minor lacerations of the head was treated and released at the ES. Public Health Service Hospital. Both Marks and Miss Cabinboy were transported in the Ambulance belonging to the Chugiak Volunteer Fire Company. The passenger in Marks car, 13 year old Robert Yates of mile 23 was uninjured.

Estimated damage to the Falcon was \$1800, to the GMC, \$750.

State Police reported that this had been the third accident on the Eklutna Bridge last night the other two being minor one car accidents; one involving a military jeep and the other a Cadillac driven by an elderly woman.

They cautioned motorists to be aware of the icy condition of the bridge, although the Army has since sprinkled some sand on it.

MTA CONTRACT LET

PALMER: Max Clement, manager for the Matanuska Telephone Association reported that the contract for the line construction in the next service program has been let to the T. Zontelli Company of Ironton Minnesota.

Zontelli had been the original low bidder on the contract, but because at that time they did not hold a State of Alaska license the contract had been awarded to the next lowest bidder, Dodge Electric of Palmer. (cont next col.)

(MTA)

The contract was (after considerable delay) once more given to the Zontelli Co.

This after a request on the part of Senator Humphrey of Minnesota to the REA that the Zontelli Co. be permitted to obtain the license after the contract was awarded.

Clement could not at this time predict when the work would be completed.

He was finally traced by his owner, Bud Whaley of Ski Road in Peters Creek and claimed.

STATE REJECTS HIGH SCHOOL SITE

CHUGIAK: Wayne Hull, Chairman of the advisory School Board stated that he had received a letter from Robert P. Isaac, acting Commissioner of Education, Dated Nov 1, 1962,

In this letter Mr. Isaac stated "...it appears that all sites suggested so far have major drawbacks either from location or topographical point of view."

He said "I believe that a site could be purchased under the bonding program, if approved. It would need to be level, cleared land of 20 acres or more at a reasonable central location."

The advisory school board is welcome any suggestions of sites that would comply with the above mentioned specifications.

LADIES CLUB TO MEET

EAGLE RIVER: The Chugiak Ladies Club will meet tomorrow night at 7:30pm at the home of Anna Marie Mesick on Colville St. in the Eagle River Heights subdivision. The club is currently working on the wardrobe for the doll family which they plan to give away next month.
