Borough Information Meeting Called

CHUGIAK: A special meeting to inform the residents of Chugiak of the findings of the Borough study group which has been meeting recently in Anchorage, has been called for February 15th (Thursday) 8:00pm at the Chugiak School.

Glenn Briggs, one of the local representatives to the study group urges all residents of the area between Eagle River and Knik River Bridges make a special effort to attend the Borough meeting to be held at the Chugiak School.

"Borough government is coming" said Briggs, "and we should have a voice in its making."

Within the first hour of the meeting, residents of the area who have been attending the Citizens Borough Study in Anchorage, will briefly summarize the results of the work done so far in the eleven committies.

Jim Garrigues of Spenard rural area, Joe Graham of Spenard Utility District and Robert Vroman of Willow will be present to assist in answering questions presented by the area residents.

PIERSON FINDS LITTLE ENCOURAGEMENT IN JUNEAU

JUNEAU: Dale Pierson co-chairman for Operation Chugiak High School, received little encouragement from Governor Egan upon conferring with him in Juneau last week.

Although the Governor had received several hundred letters from residents of Chugiak requesting that he include a high school for this area in his budget, Pierson saw no indication that he planned to do so.

Dear Editor,

I would like to thank all the persons who helped get the School Athletic Fund Started recently.

The idea was a suggestion of the advisory school board in order to get some much needed equipment for an athletic program, which students of both our local schools need and all would be able to use.

The board asked the PTA to help in launching the movement, so Mrs. Wiley Boroughs and Mrs. Jack Stewart were appointed and did some fine work on it.

The superintendent, Chuck Smith, has taken a lively interest in it, as he does in all matters pertaining to public education in the community and was cooperative in every way.

Shirley Mauldin gave of her fine talent in the art work and production of certificates to be given in return for donations. The Eagle River Improvement Association generously furnished the paper and ink for the certificates.

The teachers of both schools have put forth the effort to receive the money and hand out the certificates.

The editors of both local papers, Rusty Bellringer and Shirley Mauldin have given space in the papers for promotion.

A hearty thanks to all these and the parents who sent

"Obeying school and classroom rules keeps you out of trouble and helps you to get good grades. If you don't obey school and classroom rules you get in trouble with The Principal, The Teacher and your Mother and Father."

"We should be nice to the teachers and not talk back to any teacher in the hall, on the playground or in the lunch room."

"I must obey school rules for safety and health reasons and to make good friends and make good grades in my class-work. It helps me be a better citizen and act better at home. If I don't obey rules I will not have many friends and I will not get good grades because I will be thinking of other things."

"The teacher's work is very hard teaching us right from wrong along with our regular school work. Even if we don't like the rules we should consider the teacher, because when school starts, there are more mothers happy than there are teachers."
