BIRCHWOOD COUPLE INJURED IN TRAIN WRECK

MISSOULA MONT. Word has been received that Mr. and Mrs. James Simpson of Birchwood were passengers on the Northern Pacific train which was derailed near Missoula, Montana, and that they were among the 219 who were injured in the wreck.

At this time it is not known how seriously the Simpsons were injured or whether or not any of their children were also injured.

The Simpsons had flown to Seattle, and were proceeding eastward to Minnesota by train when the accident occurred.

CANDIDATES SHOW TREND TOWARD FAVORING PROPOSITION

CHUGIAK: Replies have already started to come in from candidates for election in the coming primaries, confirming their stands on the school bond proposition.

Operation Chugiak High School had send out questionnaires to all of the 215 candidates requesting that they state their stand on the bonding proposition which includes funds for the construction of Chugiak High School.

Of the twenty two replies which had arrived by the Monday night executive board meeting, only one stated that he opposed the issue, one was undecided, and the remaining twenty were emphatically in favor of it.

PALMER: Virgil Flint of Eagle River has been appointed to serve on the Board of Directors of the Matanuska Electric Association.

Flint will be replacing Victor Falk Junior of the Butte who resigned at the last meeting of the Board.

Flint's appointment places a Chugiak representative of the Board for the first time in years.

Flint was a candidate for election at the MEA annual meeting last April and was defeated by a narrow margin.

TO WHOM IT MAY CONCERN:

I have been tempted many times to write to the papers; however until a recent episode, I have not, apparently been sufficiently stirred to do so. Now I am.

On the night of 5 June 1962, I was proceeding homeward with a friend near the hour of twelve. Upon approaching the north brow of Peters Creek Hill, by the Oberg Road, I narrowly escaped having my car seriously damaged by a large scattering of rocks which had been placed in the road deliberately in such a manner as to prevent anyone's passing through without hitting at least some of them. Some of the rocks were larger than a human head. At first thought, it appeared to be a land slide, but upon going back to remove the rocks from the road, it became quite apparent from the footprints on the nearby bank, the clean ditches, and the pattern of the rocks on the road, that these had been placed there deliberately to present a hazard to traffic. This could have caused - at the very worst - a headon collision, with human life involved;

MY BOROUGH

By Jesse E. Wooten

Very soon the petition to incorporate the area from Knik Bridge to Portage into a First Class Borough will be completed. You may or may not be asked to sign this petition. Should the borough planners get enough signatures to qualify the petition, the Local Affairs Agency and the Local Boundary Commission be satisfied with their findings, then the Secretary of State will call for an election to be held on incorporation.

The Secretary of State calls for an election on several questions concerning incorporation. (1) You will be determining if a majority of the qualified voters in the area want an organized borough. Every qualified voter in the area proposed for incorporation may vote on this question. A majority of those voting decides the question. (2) To elect a borough chairman and members of the borough assembly from outside first class cities and members of the borough school board. Every qualified voter within the area proposed for incorporation, may vote for one (next col)

(borough)

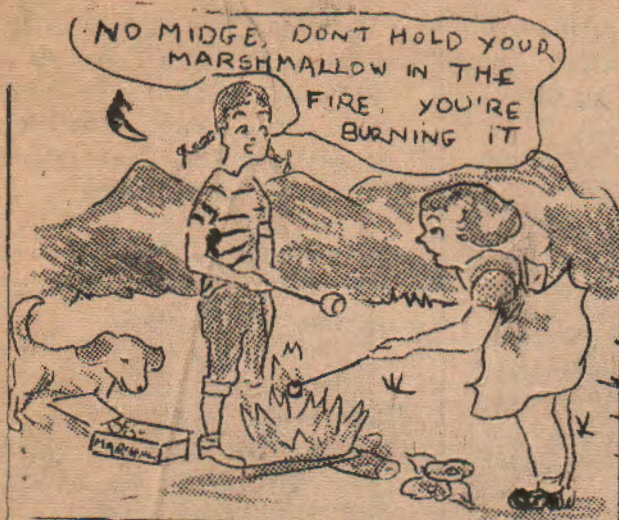

candidate for borough chairman. Every qualified voter living outside the first class city but within the area proposed for incorporation may vote for members of the school board. In all three cases the candidate or candidates receiving the most votes are elected.

(3) Another question to be decided on the incorporation election is which, if any arewide powers will be exercised by the organized borough in addition to the three required. The three required are Education, Planning and Zoning, and Tax Assessing and Collecting.

The present borough petition will probably have the additional power to regulate health over the entire area. If you notice carefully, you will see in the next few months the Greater Anchorage Health District declare that the health of the entire area from Knik Bridge to Portage is at stake. They will declare that the health hazards in

Tell it to Martha!

By MARTHA COUNCIL

Dear Martha,
I am deeply disturbed. For the past few years we have had a fine girl baby sit for us.

She has proved very responsible and efficient, and I have never had an uneasy moment when we left our children with her. However the last time we had her something occurred that makes me wonder.

She accidentally left some of her books here when she went home. Among them was a paperback novel that is the worst trash that I have ever seen. It is one which can be bought at any magazine stand, but it is nothing that a teen-aged girl should be reading. There were some passages in it that made me blush.

I don't know how to handle it Martha. I think her mother should know, but I hate to tattle. Also, I am beginning to wonder if she is as nice a girl as I thought she was, and if I can continue to trust my children with her. Please advise me on how to handle this.

Sincerely
Mrs. Uncertain

Dear Mrs. Uncertain,
I doubt if any girl has passed through her teens without reading at least one forbidden book. True, some of the books today are a lot worse than the ones we read as girls, but the fact that they are placed in the stands and sold to anyone with the money to buy one, makes it a lot

easier for youngsters to come by them.

Don't condemn this girl on the basis of this book, if you have found her to be a fine girl otherwise, rest assured that reading something that may be classed as trash won't change her.

No doubt she feels some guilt and shame about her having left it at your home.

Simply return her books to her with no comment, and by no means speak to her mother. Nothing makes this type of literature seem more attractive as being forbidden to read it by one's parents.

Sincerely,

Martha Council.

NURSE HELPS IN CLEAN-UP

and; at the least, some very expensive repairs to some unsuspecting motorist's car.

This malicious act, unless made public, would never have come to light unless a serious accident had occurred, and I feel that it is about time that the community take stock of itself. Is this the way the children and the adults of this community should feel about their fellow man? Incidents have occurred in the past - some published and some unpublished - which point the trend. Let me list a few:

1. In 1961, a plate glass window was broken at a public benefit dance. The individuals involved have never felt responsible enough to pay for the damages.
2. In 1961, a church signpost was broken down, with no effort on the part of those involved to replace or repair the damage.
3. Vacant homes and cabins have been vandalized, with the contents being destroyed, removed or stolen and, in some cases, material so removed has been used for the purpose of building other person's homes in the locality.
4. Dogs have been shot, apparently for "kicks" in 1961 and 1962.
5. Cars have been sabotaged at a church youth camp, in 1961.
6. In 1962, gasoline was stolen by siphoning from cars whose owners can ill afford to lose it.
7. In 1962, a homesteader's house was burned to the ground; the effort of two year's labor, toil and thrift went up in smoke, with no restitution because of an irresponsible attitude on the part of both the parents and children.

This is a partial list of some of the incidents that have come to my attention either through the press or from first hand knowledge.

Is this youthful prankishness? Can these acts be classed as practical jokes? Should these things be overlooked? Or should we, as a community, shrug our shoulders and say "This is getting terrible. 'THEY' ought to do something about it." Who is this personal pronoun "THEY"? "THEY" is every citizen in this community... your neighbor... your self... and me.

Unless your neighbor... your self... and I do something, whether it is to support the high school effort, support the church of our faith, take an interest in the newly-forming local government, help our fire companies with work and money, control our children and our selves, self-control and self discipline, "THEY" will do nothing.

An attitude of irresponsibility and indifference on the part of parents is reflected very quickly in the attitude and behavior of children. This road leads in one direction only - down. This leads away from a realization of the Kingdom of God here on earth; and for those who profess to have no concern in this matter, but want a practical application, it is leading this community AND the rest of the nation to lose the struggle for freedom - true freedom, not license - by default. We will forfeit the game without pitching a ball - morally, spiritually and economically.

this area warrant some mandatory action, thus paving the way for their control of the health function of the entire area.

If the borough should be formed of this size, you will see other departments in the city making similar declarations. It would be a simple matter for the Police Department of the city to assume that what is done in the country affects the safety and morals of the city dwellers. One by one, the departments of the City of Anchorage will find justification for extending their control to the borough boundaries. This is a natural process of government.

(4) Another question to be decided is whether or not we will have the Borough Manager Plan. Every qualified voter in the area proposed for incorporation may vote on whether or whether not the organized borough should have an appointed manager.

Regardless of how many elections are had, the basic problem of the city controlling the areawide powers over the country will not be solved. The sad part of this is that the borough planners have not pointed out all the underlying principles behind borough government of this type. They have referred only superficially to the organized borough. See you next time.

LOCAL TEAMS CLASH IN CLOSE CONTEST

By Liz Harriman

CHUGIAK: The game between these two Chugiak teams was a hot one and well attended by enthusiastic rooter who certainly got their "moneys worth".

A scoreless first inning brought tension on both sides even higher. Chugiak was ahead in the second 2-1.

The Yankees made their move in the third with 5 runs to Chugiaks two, bringing the total score up to 4-6, Yankees favor. The Yanks stayed ahead in the 4th and 5th with a score of 5 to 9.

In the top of the 6th, Chugiak made their bid by batting in 5 runs, but the Yanks came through in the bottom half with the tying run and an over-throw at third to bring in the winning run that ended the game 10-11.

TOURISTS CAR DAMAGED IN REAREND COLLISION

PETERS CREEK: A retirees elderly couple from Charlotte North Carolina, who have been touring the United States were the victims of a rear end collision on Peters Creek Hill last Friday.

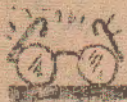

Mrs. and Mrs. Ernest Counts were proceeding north up the hill, when a car driven by Robert W. Crain of Anchorage smashed into them.

According to Crain, he had thought that the Counts vehicle was about to pass the car ahead of it and he speeded up to pass also. He realized to late that Counts was not going to pass, and was unable to avoid running in to him.

Mrs. Counts complained of being shaken up, and was taken to a doctor who determined that there were no serious injuries.

Damage to the Counts car was estimated at \$500, to the Crain Car, an estimated \$300 damage. Crain was cited.

The Counts couple had been staying at the Peters Creek camp ground.
