EAGLE RIVER BRIDGE DAMAGED

EAGLE RIVER: One girder was completely torn from the Eagle River Bridge and others damaged, when a truck and trailer carrying a high load attempted to cross on Monday evening.

Bob Barkley, of Nuffman Rd in Anchorage, driving a tented truck, loaded with a LeTourneau scraper, stated that he did not realize that his load was too high until the damage to the bridge had occurred.

Traffic washeld up for over an lour while Barkley managed to back his load off to one side and make room for one lane of traffic.

He then managed to reload the scraper so that it would pass under the bridge girders.

Barkley was headed toward Palmer at the time.

This is the second bridto be damaged is such a manner in this area in a little over a month.

In May the Knik Bridge suffered extensive damage from a piece of equipment which was too high to pass under the girders

The new Eagle River Bridge is expected to be ready for use within a few days.

MY BOROUGH By Jesse E. Jooten

The three obligations which must be assumed by the borough when, and if, incorporated are Schools, Planning and Loning and Tax Assessing and Collecting. Any additional obligations which the borough will assume must be placed on the petition for incorporation and be voted on at the incorporation election.

The borough Steering Committee has accepted the power to regulate health as an additional power to be placed on the petition. (next ool.)

Let us look at some of the background of this movement to add this additional power to the borough's obligations:

(1) In the borough study committee on Health, held in the early part of this year, the Chairman made this statement, "Health service would be passed by the assembly in a first class borough as the need arises. In a second class borough, however, to include health service for the area,

the issus would be voted upon by the people of the area.

Should the area vote defeat next col.)

(lly borough)

the health program, the rural areas would be left without health coverage, as the state will automatically withdraw its health activities with the formation of a borough. What happens in the case of an epidemic with health coverage dependent upon the vote of the people in a second class borough?"

The above astatement laid stones for building justification to not only consider a first class borough, but to add the additional power to the petition.

We should ask the borough planners what happens in any area of our country when we have epidemic? The people of this country have supported a program of U.S. Public Health to aid in such cases.

The people of the individual states have delegated their powers to a central government to act in case of emergencies. The people of this country support a Department of National Defense to aid in such emergencies. Yet, the borough plan-(cont page 5 col 3)

Today's Electric Ranges Stay Cleaner, Clean Easier

Today's cooks not only cook better electrically, they cook cleaner, too.

Manufacturers have gone all out to make this year's electric ranges cleaner to cook with than ever before. The cleanability that's built into the 1962 models is a bonus homemakers appreciate because automatic cooking is even more fun when there's no fuss afterward.

The new electric ranges are designed to stay cleaner during cooking and to be easy to clean when the cooking's done. Automatic controls and timers help prevent boil-overs and burned food, and, in case food is accidentally spilled, a raised lip around the outside of the cooking top keeps liquids from running off.

Sleek designs with continuous surfaces and rounded corners which eliminate dirt-catching cracks and crevices also mean cleaner cooking, as do many other design features. Among these are surface elements that lift up or can be completely removed, and reflectors that can be replaced or removed for washing.

Electric ovens may have replaceable foil liners, or the whole oven may slide out for easy cleaning. Oven doors drop down or are removable and some

Oven cleaning's easy, as this young lady shows, when the whole oven pulls out to be reached comfortably from above.

oven and broiler elements may be taken out. Spatter-proof broiler pans make broiling a pleasure.

Materials used in today's electric ranges are practical as well as attractive. Even the most luxumous-looking model is as easy to lare for as it is to cook on.

Mrs. Long pointed out to Dr. Wicks that the report had undoubtable been made prior to the Health and Welfare Council taking possession of the building and preparing it for use as a clinic.

Dr. Wicks was delighted with conditions at the Health Center, and told Mrs. Long that he would authorize an official sign for the building. The sign will be 7feet by three feet and will read "State of Alaska, Health and Welfare Départment, Chugiak Office."

D . Wicks also told Mrs. Long that he would authorize additional furnishings for the Center from the surplus property Jarehouse.

He also assured her that the lease of the building would be renewed when it expired on July 1st.

Martha Council

Dear Martha,

I have a problem which I am very much ashamed of.

I am a very large woman, and have had to go on a very strict diet for reasons of my health.

Well, at first I was very proud of myself, and had no trouble staying on my diet; but the last few weeks, I find that I am unable to.

Oh, I don't have any trouble during the day, It is at night that my worries begin.

I wake up about 2am, starving to death. I try to get back to sleep, but all I can think of is food. I have finally taken to sneaking out to the kitchen for a snack. After I have had something to eat, I sleep like a baby.

Of course, I am no longer losing weight like I should, and my doctor is very puzzled.

I am too ashamed to let him know that I have no will pow-

I have tried to tough it, out, but I will just lie there all night suffering unless I get something to eat.

Can you say anything that might help me?

Fat Girl

Dear Fat Girl,

First of all, stop trying to keep secrets from your doctor.

If your weight is endangering your health, it is important that he know how to help you stay on your diet.

I suggest that you ask him if it would be all right to prescribe a midd sleeping tablet. This might make it possible for you to sleep the night out without waking up for your midnight snack.

Since you say you have no trouble keeping to your diet during the day, this should solve your problem.

> Sincerely, Martha Council

(2) Later in the spring this year the Greater Anchorage Health Board met and decided that the lealth condition from Knik River to Portage needed immediate attention. Here afe some of their opinions. "Public health services should be areawide in whatever borough that is eventually established in the Anchorage area and such services and powers would include all those now extended by law to first class cities in matters of public health.

In addition, it was the con-census of the Board that the health services should at a minimum extend throughout the area from Mittier-Portage to the Knik River bridge ... It. was the feeling of the Board that there was a great urgency in the creation of a borough covering at least the area outlined above due to critical public health considerations." More stones have been laid to the foundation by the above declarations of the Greater Anchorage Health Board.

(3) The state Department of Health's sanitation and engineering office made the observation that there is "Serious thewat to life, health, and property values through overflowing cesspools, unsafe water supplies, and a garbage strewn country side." Reference in this case is to areas outside cities.

more add up to the fact that the pushers of the borough come from areas where facilities already exist. They believe the only way to help us is to include us under the administration of first class cities. They say, "what happens in the country affects the city." See you again next time.

YANKEES TIE WITH TIGERS

By: Elsie Boroughs

CHUGIAK: Thursday night the game between the Chugiak Yankees and lit. View Tigers ended on a note of protest at the end of 5 innings with the score tied 13 to 13.

In a game filled with fielding errors, the Tigers took an early lead by scoring 8 runs in the third inning. The Yankees had scored 2 runs in the 1st and in the 4th had closed the gap to 13 to 7.

As in the past 4 games these Yankees seem to mait until the last inning to pull their games out of the fire; and this was true tonight.

In the 5th the starting Tiger pitcher had been relieved and the relief pitcher issued a series of walks that tied the game up 13 to 13. It was at this point the score keeper for the Tigers disputed the score, claiming her records showed the score to be 13 to 12. In comparing the 2 books, the Tigers showed a man as heing the 3rd out and the Yankees had him scoring a run.

The Umpire accepted the Yankee score as the official score

of the game.

With one run scored by the Tigers, and 2 men on in the sixth, the game was called because of darkness. It was at this point the manager of the Tigers indicated a protest would be forthcoming (next col) (Tigers)

at the Little League meeting Friday, June 15, 1962.

The outcome was *determined to be that the score book in guestion was in error, and the gam called after 5 in-

nings is a tie 13 to 13. Play off to be Wednesday June 20th in lit. View.

YANKEES DO IT AGAIN

CHUGIAK: The Yankees pulled another game out of the fire in the last half of the sixth. With the score 6 to 5 in favor of the White Sox, Steve Willis hit a long drive into right field, then Steve Whaley collected a single. David Boroughs, running for Steve Willis, then scored the tying run on a passed ball.

With two men in, Ron Papas hit a beautiful 2 bagger to bring in the winning

It was a pitchers duel that night, with both pitchers Ted Baker for the Yankees and Chip Groce for the Thite Sox, striking out 10 batters and issuing only one base on halls.

Both sides played heads up ball after a bad start, when the Thite Sox scored 2 runs on2 errors in the first inning.

A large crowd greeted the winning team after the game withocries of "Why don't you guys win one in the first 5 innings for a change?", and believe me, that is just the way that this reporter feels! (next col.)

(!/hite Sox)

For the Yankees it was 7 runs, 11 hits and 4 erros; for the White Box, 6 runs, 5 hits and 2 errors.

Winning sitcher, Ted Baker, (3-0) only allowed 5 hits in pitching a beautiful game. Most unusual for a Little League game.

To date the Yankees have 5 wins, 1 tie and 0 losses.

Next game is tonight, Wed. June 20th play off with the Tigers.

On June 21st, against the Dodgers in Lt. View and on June 25th against the Braves! at Chugiak.

One-fourth of the nation's leading citizens think rural electric systems, financed by Rural Electrification Administration loans, pay no taxes. This erroneous impression was revealed in a recent national public opinion survey.

The Facts

America's rural electric systems, owned by the people they serve, pay local, state, and federal taxes running into millions of dollars annually. Many rural electrics are the biggest taxpayers in their counties.

Rural electrics, operating on a cast basis to bring member-consumers electricity, generally pay the same taxes as any other business. They do not pay Federal income tax because they do not make a profit. Monthly electric bills pay operating expenses, depreciation, and interest and principal payments on REA loans. Any over-payments are returned to members.

(Pony League)

On Tuesday, at the 9th and 0 St. Diamond, thugiak went down to the Anchorage Elks by a score of 20-8.

The runs made by the local boys were evenly distributed.

liest outstanding play was made by Mike Roderick, who caught one at center field, and threw in into second base for a double play.

Managing the team in the absence of Paul Fillmore, who has gond outside for a vacation is Dale Travis.

The next game will be on June 25th against the Lt. View shoppers and will be played at the Chugiak Diamond.
