BRIGGS APPARENT WINNER OF LOCAL SEAT

HELEN MULLET (right) POWRS A SAMPLE CUP OF COFFEE FOR MARIAN SEABURG, (left) AT THE GRAND OPENING OF VALU-CITY LAST WEEKEND (see page 12)

CHUGIAK: Glenn Briggs was the apparent victor in Section one, with all but two precincts reporting.

Although Willis outpointed Briggs in both of the local voting precincts, the overall vote throughout the borough area showed Briggs ahead by a vote of 1106 to Willis's 998.

The two precincts that had not yet reported were Girdwood and Portage. These two precincts at the last borough election in September had a total combined vote of only 49, which would not be enough to change the result according to the borough election supervisor.

The total number of votes cast in the election (not counting the two unreported precincts were 6820.

The vote indicated the choice was for a second class borough, with a borough chairman at the head.

John Asplund was the apparent victor in the chairman race. All incumbent members of the Anchorage independent school board were elected to the borough school board.

The local vote was light, probably caused by the icy roads which kept many of the voters at home.

Total vote in the Chugiak voting precinct was 274, and was as follows:

FIRST CLASS..... 41
Second Class.....

First Class..... 41
Second Class..... 225

PETITION TO SAVE HIGH SCHOOL CIRCULATED

CHUGIAK: The concern of many local citizens over the possibility that the Chugiak High School may be converted to a Junior High under the borough school system has resulted in a petition being circulated throughout the community.

This petition states that those signing it do not favor converting the school to a Junior High School and states several reasons; among

LETTERS TO THE EDITOR

Dear Editor,
Let's leave our high school a high school. Two years of planning and hard work have gone into achieving this goal. It was conceived as a High School, planned by the architects and educators as a High School, and dedicated as a High School.

No purpose could be served by changing our minds now. All the valid reasons for having a local high school still exist.

Completely adequate courses to qualify for college entrance will be offered in the Chugiak High School. College entrance cannot be harmed by attending the local high school.

It has been mentioned that a small high school cannot offer a good education. Can we say then, that Seward,

OUR MEMORIAL

With cities and communities throughout the entire nation naming memorials in honor of our late president, John F. Kennedy, the residents of the Greater Chugiak Area have been heard to express their wishes to name a local memorial in his honor.

There have been numerous suggestions. With the many natural beauties within our community, there are numerous lakes, streams or

mountains that could bear the name of our late beloved President. Also there could be parks or public buildings that could bear his name.

With the latter suggestion in mind, the thought has occurred that no more fitting memorial could be found in our community than our new high school, now under construction.

Above all, our late President demonstrated his deep affection and concern for the youth of our nation.

**BOAT BURNS ON
TRAILER**

BIRCHWOOD: A 16 foot fiberglass boat was completely destroyed by fire on the Birchwood road last Monday.

The boat belonged to Abe Walker, who is a construction worker at the Chugiak High School.

Walker was towing the boat on a trailer preparatory to storing it at the home of a friend in Birchwood.

John Steeby of Jayhawk Drive in Birchwood was following behind the boat when he noticed that it was on fire.

Walker was flagged down, and according to Steeby, by that time the boat was completely engulfed by flames and it was impossible to extinguish them.

(next col).

(BOAT BURNS)

The men were able to push the boat off the trailer, thereby saving the trailer.

Destroyed along with the boat was a 75 horsepower outboard motor that was attached to it.

Walker guessed that the fire might have been started by the battery which was connected at the time.

Would it not than be the greatest honor that the people of this community could do to his memory to name our new school the JOHN F. KENNEDY HIGH SCHOOL?

**LAUNDRY CENTER ROBBED
MACHINES DAMAGED**

EAGLE RIVER: The Eagle River Laundry Center was once again the victim of a robbery, this time the coin boxes from two soap machines and a large washer were completely broken off and taken.

Cook of the Month

Our cook for December is no stranger to most of us, for there is hardly an activity in the community that Jo Frankfourth has not taken an active part in.

Jo came to Alaska in 1945 with her parents, and is a graduate of Anchorage High School.

It was there that she met Jack, who she later married.

Jo has lived in Alaska almost continually, with the exception of two years when she attended Colorado State College at Greeley Colorado where she majored in Physical Education and teaching.

She has a occasional opportunity to practice her teaching as she fills in as a substitute at either of the two local schools.

She is also an accomplished draftsman, and worked for a while for the Department of Education.

Her skill at drafting was of great help to the community when she made up the population maps that help persuade the state department of Education of the need for a second grade school at Eagle River. In fact, it was Jo who along with one other PTA member who braved a group of state school board members and legislatures with this map and persuaded them to build the Eagle River School.

A similar map was compiled by Jo when as a member of Operation Chugiak High School, she helped to bring that project into being.

Jo in many ways has indicated her interest in schools. She is presently treasurer of the Eagle River PTA, and held that office in the Chugiak PTA when her children attended that school.

The Frankfourths came to Chugiak in 1957 when Jack became the manager of the Market Basket Store at Eagle River. They make their

home in a large house trailer on the Eagle River Homestead Road.

Jo has many hobby's and interests, and dramatics is one of them. She is a member of the Chugiak Players, and has taken part in numerous efforts that group has put on. She also had a leading part in "Harvey" which was produced by the Chugiak PTA.

Her activities include gardening, she is an accomplished knitter, and last year won the State Championship in "B" division in bowling.

Her interests seem endless, and government is one of them. This she demonstrates by serving

(next col)

election judge at the borough election presently being conducted.

Small as a trailer might seem, the Frankfourth trailer has the room for a piano, and Dee aged 12 and Vicky 10, are both taking lessons.

Jo is especially proud of her spoon collection, which includes several antiques, as well as some that have only sentimental value.

It was with great pleasure that we visited with our merry cook for December, and we look forward to sharing some of her favorite dishes.

Most of the recipes that Jo has given us are ones that she feels are appropriate for the coming Holiday season.

LETTER TO THE EDITOR
(Cont page 2 col 3)

Kenai and Palmer are failing their students by giving them a poor education? No, certainly not. And, incidentally, when Chugiak High School opens, it will be one of the largest High Schools in Western Alaska.

The gain to the students in identifying with their school will be enormous.

They will not just attend High School. They will be a part of it. There's a lot to be said for being a big frog in a little puddle. A kid can be student body president here, or Varsity Basketball or Cheerleader or President of the Honor Society. Let's fact it. No matter how qualified our local students are, they don't stand much chance at East High. For one thing, they have to get on the bus and go home.

I really feel that extra-curricular activities are half of a well-rounded High School Education. Our local students will have a better chance to take part in all activities of the school. The drop out rate will surely go down when students feel a part of their school. Let's see more kids finish high school.

(next col)

(letter)

For those few students who will be "harmed" as stated by Ralph Mills in his statement to the press last week, by attending a local school (and granted there are some who are taking special courses) there are other ways of continuing at East High other than changing the plans of a whole community.

If it is important enough to the parents of these few to try to change what is practically an accomplished fact....the Chugiak High School...it must surely be important enough to those parents to spend a few hundred dollars in tuition and arrange car pools or other means of private transportation. If a family wants their child to attend a certain school that family should make their own arrangements.

DEAR EDITOR,
"SAVE OUR CHUGIAK HIGH SCHOOL."

I am making an earnest appeal to each and every

citizen in this area to sign and give support to the petition "Save Our Chugiak High School."

In the many businesses in the community, you will find such a petition.

If you support the SOCHS idea, than by all means make a special effort to sign this peption.

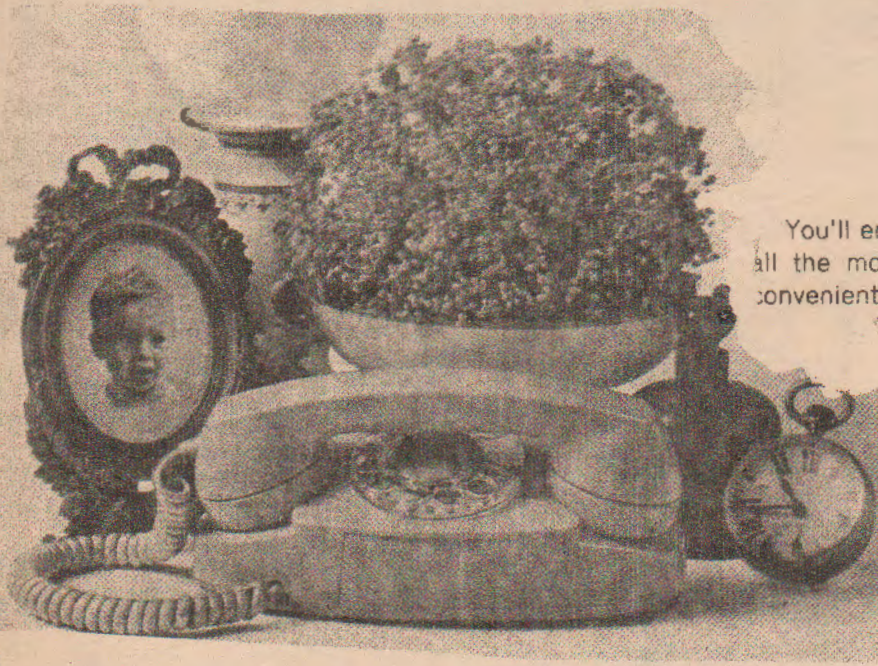

A potential threat exists to turn our Chugiak High School into a Junior High School. This threat stir many of our local citizens to act. The general opinion was that something must be done. Since so much ingerest was shown a small group met and drafted a simple petition, stating a few of the main reasons why we should try to save our Chugiak High School.

Every day we find sentiment growing in favor of SOCHS.

You have only a few more days to register your sentiment before we will pick up the petitions.

We sincerely hope that in the few days left, you will also become a member of the SOCHS. In face we hope you will become a fighting "SOCHSER"

THANKSGIVING NEWS

What does Thanksgiving mean to young people?

This was one of the questions that was asked of the student body. The answers ranged in four different categories.

There were those who thought of just food. In this group the foods mentioned were associated with Thanksgiving. They were turkey, pie, (pumpkin), ham, cornflower (?) cranberry sauce, cake and a good feast.

Some students mentioned helping cook and set the table (unusual!) Others said they were having guests over the holidays or just for dinner.

Some were going to their relatives or friends house for dinner.

Some of the younger children mentioned the fact that long ago the Pilgrims and the Indians had had the first Thanksgiving.

The Mayflower was included. Also Davy Crockett (The teacher is going to straighten him out later, we hope!)

Then there was the odd group. One girl replied that she thought of her birthday. Another didn't want a long vacation because he had to work. (We feel truly sorry for him; don't we?) Still others thought of a long vacation because their term papers are due right after Christmas vacation. (Another one for the teacher to talk to!)

A few mentioned something about religion. One of our teachers considered Thanksgiving a family giving, thanks. Some said they were going to church. Along with other things, the Puritans were mentioned.

You cannot state really what Thanksgiving is. It is many things that have been combined over the years. We hope you had a happy Thanksgiving!
