BOARD SEEKS SCHOOL AT BIRCHWOOD

**NURSES SOUGHT FOR
POLIO CLINIC**

CHUGIAK: The success of the local Oral Polio Clinic is threatened by lack of sufficient Registered Nurses to administer the vaccine.

Mrs. Roger Jonrowe, co-chairman for the effort has requested that any Registered Nurses that may be living in quiet retirement in the community, come forth and offer their services for this vital cause.

Mrs. Jonrowe may be contacted at the Chugiak Post Office, phone HO-2-5590.

A minimum of two nurses will be required at each of the two schools where the clinics are scheduled.

**MARCH OF DIMES
CANNISTER STOLEN FROM
POST OFFICE**

CHUGIAK: This years vote for the title for the "Meanest Person in the World", can go to the one who stole the March of Dimes cannister from the lobby of the Chugiak Post Office.

Postmaster Paul Swanson said that the cannister disappeared sometime after the Post Office had closed last Thursday.

Swanson added that the lobby of the Post Office is left open 24 hours of the day as a courtesy to the patrons. However in the event of any acts of vandalism or theft, the Postal Department will require that the lobby be closed when the Post Office is not open.

The theft of the cannister is

CHUGIAK: Needs for additional classrooms in the Greater Chugiak Area were discussed at the last meeting of the advisory school board.

Even with the completion and occupancy of the Eagle River Addition, overcrowded conditions are anticipated.

It was the opinion of the board that a third school to be located in the Birchwood area was more advisable than attempting additions to either of the two present schools.

A piece of land on the Birchwood Loop has already been approved by the Advisory School Board as the ideal location for the Birchwood school. This land is designated by the state as school land, and lies on the Birchwood Loop between Jayhawk Drive and the Birchwood Spur Road.

Ed Willis, member of the School Board is planning to be in Juneau for the Governors inauguration. The State School Board will be meeting in Juneau at that time.

Willis is planning to meet with members of the State Board and acquaint them with local needs.

BRINKLEY SEZ....

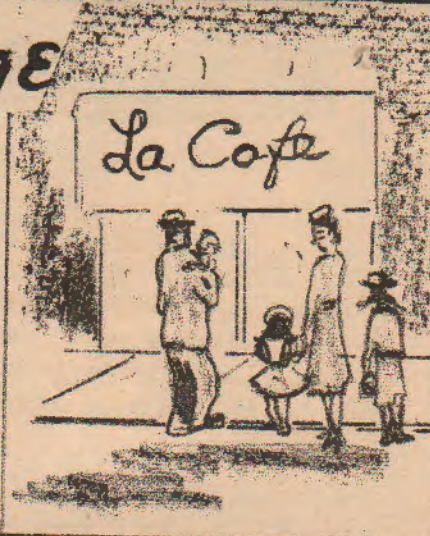

We watched the David Brinkley Journal last Monday, prepared to be very angry at the distorted view of Alaska which has been the cause of so much furor.

Angry we were, at the bleak, unattractive picture of Alaska he had depicted. However, aside from misrepresentations, we found the film as a whole to be very dreary, disjointed, the photography poor and the commentary singularly uninspired.

Despite the fact that the film has received an unusual amount of publicity, we are of the opinion that it is a very poor piece of journalism, and is scarcely worthy of the nationwide attention it is receiving.

Never having seen any of Mr. Brinkley's other documentaries, we cannot judge whether or now all of his efforts are of the same low caliber. However, if this is a fair example of Brinkleyism, then we of Alaska are missing very little by not having it as a regular network feature.

TIPS FOR MILADY

Here is a way to remove those ugly black stains that aluminum pans leave in your kitchen sink. No need to scrub or scour either.

Simply apply a drop or two of a liquid designed to remove rust stains* to the mark; and wipe it away with a dry cloth or the tip of your finger. This will also remove any rust stains left by a forgotten steel wool pad.

Tell it to Martha

By Martha Council

Dear Martha,

I am a newcomer, not only to this neighborhood but to the state.

When I first arrived one of my new neighbors immediately took me under her wing and was most helpful and friendly in every way.

But Martha, she has been the only one who has made any effort to befriend me. Others who I have met either ignore me or always are to busy to drop in for a visit.

Bit by bit I have put two and two together, and figured out that the lady who has been so friendly is considered by most everyone as the neighborhood as a screwball, and a trouble maker to boot.

Now I figure that they

are avoiding me because of her.

Martha, how can I make some other friends. As long as she is so chummy with me, I'm afraid I don't stand a chance. I don't want to brush her off, as she has been a good friend to me (although I must admit she does get on my nerves quite a bit).

Pariah's pal

Dear Pariah's Pal,

I suggest that you join your local PTA and volunteer to work on some committee at the first opportunity. They need and will welcome your help, and that will give them an opportunity to know you and learn that you are quite different from your unfortunate friend.

Sincerely,
MARTHA COUNCIL

BAKE SALE FOR MARCH OF DIMES

EAGLE RIVER: The bake sale for the benefit of the March of Dimes netted a total of \$18.70.

Mrs. James Morrison co-chairman for the local March of Dimes stated that in view of the icy roads, which kept most people at home, the sale did better than expected.

Both chairmen for the local drive have asked that a special word of appreciation be said for the members of Beta Sigma Phi, who contributed both of time and effort.

Mr. and Mrs. William Draughn of Swanee Slopes have left having been rotated by the Air Force.

They plan to visit in Iowa before reporting to their new duty station in Arizona.

Jimmy Lee and Glenn Henriches of Old Chugiak left last Saturday for Kodiak Island to begin their naval enlistment.

The boys had been scheduled to leave January 10th, but poor weather had delayed their departure.

Anchorage Area Physicians are sponsoring the Sabin Oral Sundays Program to save You and Yours from Polio!

YOUR DOCTOR SAYS: "Everyone should take Sabin Oral Vaccine—from new born children up to our eldest citizens. Even if you and your family have had the Salk shots you should take the oral vaccine. Sabin Oral Vaccine gives lasting protection against all three types of paralytic polio, and further will prevent your being a 'carrier' of the disease, thus endangering others.

WHAT IS THE VACCINE?—It is a weakened virus developed by Dr. Sabin and others with the support of the U. S. Public Health Service, The National Foundation, and others. It is comparable to the vaccine developed from Smallpox virus, where the word vaccination was first used. Like vaccination, successful immunization results in hardy resistance to infection, in this case from polio virus. With polio, however, which really consists of 3 distinct but similar diseases, 3 immunizations are necessary.

IS THE VACCINE SAFE?—Considerable publicity has been given to a few cases of polio considered to be derived from Type III Oral Polio Vaccine. In considering the many millions of doses given, however, the risk of acquiring polio is almost infinitesimal, and the U. S. Public Health Service after study, is now recommending the community wide use of Types I and II for all people and Types III for children and young adults.

WHY TAKE SABIN ORAL VACCINE?—The taking of the oral vaccine differs from the Salk vaccine in producing an "active" immunity, one that is much more complete and long lasting. This means that persons exposed to polio virus not only will be protected from serious nervous system damage . . . but will not even acquire the disease in any form and most importantly cannot become carriers of the disease and infect other susceptible people whom they may contact. Thus in a community well immunized with the Sabin Oral Vaccine, the lack of sufficient number of susceptible persons will cause the disappearance of all polio virus. In this

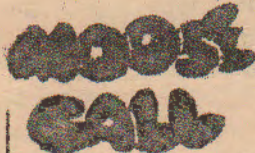

way even the few unimmunized people will be protected. But to achieve this goal approximately 80% of the entire population must receive vaccine.

WILL THIS BE AN ANNUAL PROGRAM?—No! This program will not be repeated. Once the community has been immunized there will be no need for an area wide program. New babies and arrivals in the community can be immunized at their family physician's office, hospital, or elsewhere.

SHOULD I TAKE THE ORAL VACCINE EVEN THOUGH I HAVE TAKEN THE SALK SHOT? Yes. As outlined above, the immunity from the Sabin vaccine is not only stronger and longer lasting but of a different type than that from the Salk vaccine. It not only prevents serious complications of polio, but actually prevents one's becoming infected and being a carrier of this serious disease and possibly endangering others.

WHY THE S.O.S. POLIO PROGRAM NOW?—Although polio has been greatly reduced, it is still a continuous threat to our life and health. A mass S.O.S. polio program will wipe out the threat. It is important that full community wide participation at one time be obtained, and many groups interested in community health are uniting to carry out this vital program.

WHERE AND WHEN CAN YOU GET THE SABIN ORAL VACCINE?—Feeding stations will be set up in all elementary schools and in some other convenient community locations in the Anchorage area. These addresses will be published and broadcast. The vaccine will be distributed on Sundays, Type I on January 27, Type II on March 10th, and Type III on April 21st, from noon until 8 p.m. Each of these three doses gives a lasting protection against one of the three types of poliomyelitis. It will take only a few minutes to get your cup of Sabin vaccine, which has a pleasant taste something like cherry soda.

RAMS TO PLAY AT KENAI

KENAI: The Eagle River Rams will play the Kenai Cardinals this Friday, February 1st.

The local team will travel to Kenai to play this, the highlight of the local basketball season.

The Rams won the honor of representing the local school system by virtue of winning two out of a series of three games between the Rams and the Huskies.

Chuck Smith, superintendent of the Chugiak School system, announced that the bus for Kenai would leave the Eagle River School at 7am on Friday, and return to the Eagle River School at approximately 4pm on Saturday, February 2nd.

Smith said that any students, with the exception of team members and cheerleaders, would be permitted to ride the bus only if accompanied by a parent. Round trip tickets are \$2.50 each, and those planning to attend must make their own arrangements for lodging and meals. Anyone desiring bus tickets may obtain them by contacting Smith at the Eagle River school. Transportation to and from the Eagle River school will not be furnished.

Following the game between the Rams and the Cardinals, there will be an exhibition game between the members of the Kenai faculty and faculty members of the Chugiak School System, the "Professors" team of the Community Basketball League.

HUSKIES FINALLY WIN

EAGLE RIVER: The Chugiak Huskies won their first game of the season last night when they defeated the Eagle River Rams 34 to 27. High scorer for the HUSKIES was Jim Boroughs with 19 points. High man for the Rams was Gregg Thompson with 11 points.

The game scheduled between the Huskies and Catholic Jr. High last week was cancelled by the Catholic team due to the icy roads. It has been rescheduled.

The icy roads did not prevent the Rams from traveling to Wasilla last week, where they were defeated by the Valley team 29 to 16.

On Monday, the Professors were top team, beating the Wheels 62 to 38. In the second game the Franks came over the Ridge Runners 53 to 33.
