Strong repeated that this will be a public hearing, and anyone with any information will be heard.

**EAGLE RIVER:** Mrs. Richard Remer, of Eagle River, a member of the Alaska Society for the Prevention of Cruelty to Animals, is assisting in a Pet Adoption program in Anchorage and Greater Chugliak Areas.

Mrs. Remer is attempting to find good homes for the many stray cats and dogs which are brought to her attention.

This adoption is brought about with the assistance of local news media, particularly Television Station KENI, which has a weekly program every Friday at 2:45pm. On this program Mrs. Remer and other SPCA member will show some homeless pet, and offer it for adoption.

Mrs. Remer said that they have been successful in finding good homes for a number of stray dogs from the pound in this manner.

The SPCA is asking anyone with unwanted pets to contact Mrs. Remer and she will attempt to place these pets in a home. By the same token Mrs. Remer would also like to hear from those who wish to adopt a pet.

### EAGLE RIVER VOLUNTEER FIRE COMPANY

#### Annual Report July 1, 1964 - June 30, 1965

As an organization dedicated to the saving of life and property, the Eagle River Volunteer Fire Company responded to 26 fire calls and 24 ambulance calls during the past year.

Last fall, with the help of the Eagle River Lions Club, the Fire Company conducted a door-to-door campaign to enlist the support of the people of the community. The unanimous support given at that time made possible for the Fire Company to operate for the year. We were able to upgrade our old equipment and purchase some new equipment.

One of the most effective additions of equipment the past year was the automatic alarm system, whereby the telephones of all firemen ring simultaneously when the fire number is dialed. Prior to the installation of this system, many precious minutes were lost relaying the fire call to individual firemen.

## HERE AND THERE

By: R. Fleming

Our telephone is of the party variety and a few days ago I lifted the receiver amid someone else's conversation. Before I could put it down, one of the talking ladies said, "Someone wants to use the phone, I'll call you later." This was most considerate, and thank you. While this incident was still pleasantly in mind, a friend who lives in the nearby town told me of his attempt to call my number but kept getting the same wrong number. He was amazed that the young woman at the wrong number remained so friendly and pleasantly amused. My friend felt this was worth a compliment, adding that his experience in our community indicated such was the general attitude.

Recently, there was another accident at the intersection of Birchwood Loop Road and Highway 1. Fortunately, it was minor -- missed being disastrous by an infinitesimal

part of a second. Apparently, the Birchwood turnoff is difficult to locate. Several times, I've been asked for instructions to get to the High School just after the people had passed the road.

Maybe an obvious street sign would help traffic and location. There is a street sign already, but you wouldn't find it unless you knew it was there. If you know it's there, you don't need it.

Each time I read something written by Senator Ernest Gruening, I am more and more impressed with his mature ability to capably handle the English language. Whether or not one agrees with the Senator's politics, his mastery of the written word is hardly debatable. Much of his writing contains interesting information about Alaska that one doesn't seem to find elsewhere.

News and Activities of  
**CHUGIAK HIGH SCHOOL**

Editor: Frank Mielke

This year, as editor of the Mustang Express, I hope to deliver more and better news to the readers of the Mustang Express as part of the Knk Arm Courier.

This year, thanks to the helpful staff of the Chugiak High School, more time has been given to the Mustang Express, so more and better news can be turned out.

The Mustang Express will be improved in the following three ways:

- 1) A student of the month by classes will be chosen each month (freshman of the month, sophomore of the month etc.)
  - 2) More sports coverage, and more complete coverage and statistics.
  - 3) More student activity coverage.
- Student activity coverage will be immediate, as will sports, but the selection of student of the month will begin in October.

**\*SPORTS REVIEW**

**WEST-CHUGIAK CROSS COUNTRY MEET**

Last Friday, September 10, West Anchorage High and Chugiak ran what could be the roughest cross-country course in Alaska.

(next col)

(Sports review)

This was only a practice meet, and West High captured the first ten places.

West had 23 runners to Chugiak's 10. In addition, many of West's runners had been conditioning themselves for quite some time, while this was Chugiak's third night on the course.

Mike Boehm lead his teammates home with a new record for that course. The final score was 15 to 40, West having 15 as the best score.

There are hopes of scheduling meets with East, Palmer, Wasilla and other schools.

**OLD CHUGIAK:** The PERC (Petters Creek, Eagle River and Chugiak voting precincts) Democratic Women's Club, holding their first fall meeting at Spring Creek Lodge last week, made tentative plans for a reception to honor State Senator Bartlett when he is in the Anchorage Area later this fall.

The group was unable to make any definite plans as the exact date of Senator Bartlett's visit is not known as yet; however they are asking any other women's group that may wish to help with this public reception for assistance. Any group wishing to participate may get further information by contacting Mrs. LaVay Parks PERC President at 694-2282.

The group also heard a talk by guest speaker Dale Pierson, member of the GAAB School Board, who discussed the \$11 million dollar school bond issue which will appear on the October 5th Ballot.

Pierson told the group that plans for future schools for the Borough call for a 14 room grade school and a second high school for the Greater Chuglak Area, as well as a six room addition to the Eagle River Elementary School.

### NONE INJURED IN CAR-TRUCK CRASH

OLD CHUGIAK. There were only minor injuries suffered in a spectacular collision between a truck and a passenger car at the mile 17 entrance to the Birchwood Loop Road last Thursday.

The crash took place at 11:00am while a 1965 Buick was attempting to pass a School District truck loaded with building materials. The vehicles were both headed north on the Glenn Highway and the truck had just started to turn into the Birchwood Loop Road.

The car struck the front end of the truck causing it to be knocked into the ditch. The force of the impact literally tore the entire front end (fenders, hood etc.) from the body of the truck. Damages were estimated at approximately \$1,000.

The driver of the Buick was given a citation.

### SPONSORS NEEDED FOR BANTAM TEAMS

**EAGLE RIVER:** Sponsors are needed for teams, according to their coach, Mrs. Jack Stewart.

Mrs. Stewart said that there will be a total of ten teams bowling in the Bantam League, and she is asking local merchants to act as sponsoring organizations.

Bantam bowlers are boys and girls who are twelve years old or younger. In order to be eligible to bowl as a bantam this season the boy or girl must have been twelve years old or younger on August 1 of 1965.

## RESIDENTS ASKED TO ASSIST CENSUS TAKERS

**CHUGIAK:** Residents of the Greater Chuglak Area have been asked to assist the members of the Chuglak Ladies Club who are in the process of completing their community wide census.

In cases where the census taker found no one at home a stamped self addressed census card was left with a request that the card be filled in returned. In some cases, homes are located in inaccessible areas and may have been missed entirely by the census taker.

The club requests that anyone finding a card at their door, please fill it out and send it in the return mail. Anyone who has not yet been contacted by a census taker is asked to call the Knik Arm Courter, at 688-5545. The Ladies Club is very anxious that everyone is correctly listed in the directory and that all names are correctly spelled. The census must be completed by September 30th.

of the heat radiated from the soil will be trapped by the plastic, and will help keep the air around the plant above freezing.

Of course, a double layer of plastic is much more effective than a single sheet. By adding a little heat from heaters placed temporarily under the plastic cover, quite a heavy frost can be overcome.

Newspapers are often used, but they should be tied or weighted in place so they won't blow away.

Biazo cans give good protection to the individual plants,

as do large cardboard boxes. Loose hay also works fine, and can be left between rows for quick covering of plants when needed.

In any case, temporary coverings should be removed each day, or the plants will soon die, even if no frost can get to them.

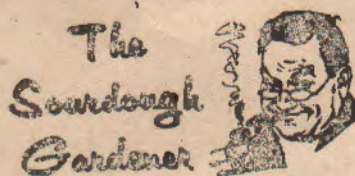

Another common practice is to keep sprinklers turned on during the frost periods. Don't be alarmed if a little ice forms, but be sure to keep the sprinklers running, even after it warms up, until all the ice has melted again.

## LIMITED OPENINGS IN BREAKFAST LEAGUE

**EAGLE RIVER:** There are still several openings in the Women's Breakfast Bowling League according to a spokesman for the Eagle River Bowl.

The league will begin their regular play on Thursday, September 16th at 10:00am. Anyone wishing to join this league must come down to the Bowling Alley and sign up at that time.

### Save Your Crops!

Every year about this time, Old Mother Nature shows her authority by turning down her thermostat for a night or two. Not quite for good, but usually long enough to put an end to tender growing things. The additional week or two of warmer weather that follows is often the difference between a good crop or none, but with dead plants there is nothing at all.

The home gardener can offer save a good crop by being prepared for early frosts. The idea is usually to cover the plant with something. A big piece of plastic will help, but laying it directly over the plant leaves gives very little protection. You should make a light frame to hold the plastic a few inches above the plants. Some of

## What to do until an emergency happens

Emergencies have practically no sense of fair play. And almost always pick the worst possible time to happen.

People seem to prefer the day your insurance lapses to trip on your sidewalk, for example.

And the car usually waits until your bank account registers empty before demanding expensive repairs.

There's no fighting it. But you can be ready. By tucking away some reserve funds in U.S. Savings Bonds.

Bonds, themselves, are emergency proof. You can't lose the money you invest in them, even if fire, flood,

robbers or plain carelessness causes you to lose the Bonds.

And when something expensive happens, you can just take them in to any bank and get yourself solvent again.

In the meantime, Uncle Sam uses your Bond dollars to handle other urgent matters, like taking care of your freedom.

Buy Bonds where you bank or on the Payroll Savings Plan where you work. Get yourself really prepared and you might even discourage a few emergencies from ever happening.
