## GAAB CONSIDERS FREE DUMP SERVICE FOR LOCAL AREA

**ANCHORAGE:** A proposal is to be brought up before the GAAB Assembly which would make the Sanitary Landfill (dump) which is located south of the Eagle River Bridge, a public supported facility, with no charge to the individual customer.

The administration believes such sanitary landfills should be supported entirely through general property taxation. It is the position of the borough attorney that the borough has the power to spend general tax revenues for sanitary landfills under the areawide health power.

It appears as if the sanitary landfill problem in the area north of the military reservation is most acute, and therefore, as an interim solution the administration will prepare an ordinance to establish a service area for all of the borough north of the military reservation. This will be introduced at the March 6th meeting of the Borough Assembly.

If the assembly approves the establishment of the service area, the administration will budget for the new service area the sanitary landfill maintenance costs. These costs are estimated to be \$10.00 per year and the necessary mill tax levy will be about .8 mills.

A study is presently underway to determine further sanitary landfill areas throughout the borough and especially in the Eagle River area. Within the next several months, the administration will propose areawide sanitary landfill service supported through ad valorem taxes for the assembly's consideration.

Public hearings on the subject of the Sanitary Landfill north of the military reservation will follow the meeting of the assembly.

The dump south of the Eagle River Bridge was established following the closing of the dump on the Birchwood Road. It was under the sponsorship of the Chugiak Benefit Association, who as the only incorporated entity that represented the Greater Chugiak Area were eligible to administer the property. The understanding was that CBA would let the dump under contract to a private operator who would maintain a sanitary landfill and charge the public for its use. A percentage of the gross take was to be returned to CBA for the use of the residents of the Greater Chugiak Area.

In the years that the dump was under the contract to the private operator, it was not kept open except on weekends, a situation which was found to be inconvenient to local users, and was not kept filled in as specified by the Borough Health requirements.

### HATS OFF TO EARLEEN!

Usually when a competitor completes an event, but fails to place in the money, he doesn't even rate a mention, much less a headline.

The grueling Snow Mobile race which took place last weekend was different. When less than half of those who began the race survived to cross the finish line, the sponsors of the race decided that each competitor who finished deserved some recognition, and presented each with a completion plaque.

It should be noted that while eight of the over three hundred and fifty entrants were women, two of these women actually finished the race.

One of these lady mushers was Earleen Forrester of Eagle River. Earleen, driving at Arctic Kat, entered the competition despite the warnings of friends that she would never be able to keep up with all the men.

She finished, not in the money, but did finish, when so many others were dropping beside the trail.

Earleen said that there were many times when she felt like dropping out, but she kept going. At one time she was delayed for over an hour with a broken down machine waiting for parts along the trail.

The women mushers asked no favors and no special treatment, in fact dressed in coveralls and face masks, to quote one radio announcer, "you can't tell the girls from the boys without a score card."

The Snow Mobile race proved to be much rougher than anyone had anticipated, and only the toughest drivers and the most determined competitors survived. We are proud that our Earleen was one of them.

**GRADE 4 (Mr. Lane):** Sharon Martin was absent today, so we have a fill in to report for us.

Our Valentines Party Tuesday was fun, with lots of good things to eat, thanks to student cooks, mothers and room Mothers.

We finally got a warm day to ski today, and after thawing out the accumulated ice and adjusting ski bindings, our room ski enthusiasts went for a slide around our trail and some practice on the hill back of the school. Most everyone can stay on their feet and go where the leader goes, which is a lot more than when we started using the cross country skis.

Kavin Matlock and Steve Yarnot made short reports before our last two T.V. Geography programs.

Each program seems to be best yet. A Talk with an English speaking man from Lebanon and a magic carpet trip over South East Asia gives us valuable information about these countries and their people and customs.

We hope to have a mural completed before the end of the year, showing some important steps in the progress of the area schools since 1915.

Well till March 31, everyone from room #9 wishes you good luck and good skiing.

## SNOW CARNIVAL DATE DRAWS NEAR

**OLD CHUGIAK:** The second annual Chugiak Winter Sports Carnival, to be held March 4th, promises to exceed last year's carnival in fun and activity. Some 21 events are scheduled to allow all ages and skills to participate.

This year, there is a little difference in age grouping and classes have been scheduled so as to insure a faster moving program.

A new even is now show racing. The racing will be done in four age groups and the course will be fairly short one. Now is the time to get out your snow shoes and do a little practicing.

The participants who got tires on the cross country skiing race last year will be happy to know that the course has been shortened considerably.

Make your plans now to attend and enter the winter sports carnival on March 4th. Events begin at 11am. Hot food and drink will be available.

The plane was a blue and white Cessna 170, with three persons on board. The name of the pilot was not available.

### NEWS & ACTIVITIES OF THE EAGLE RIVER SCHOOL

#### ALASKA CENTENNIAL EDUCATIONAL PROJECT

Miss Schultz of Eagle River School has been instructed to work "full speed ahead" on three separate educational resource kits. Mr. Kacquot and Mrs. Griffin are two people who are employed to help her. These kits, when finished will help with the celebration of the Alaska Purchase Centennial year.

The Centennial committee voted in December to set aside \$1,200 to be spend obtaining special artifacts and other materials that will cover the Eskimo, Aleut and Alaska Indian cultures.

"The emphasis", stated Miss Schultz, "will be places on the Native clubures, prior to the coming of the white settlers from Russia and the United States. However, there will be adequate time for a look at the new Alaska Native cultures, so that students will not be left with a false impression of what it is like today."

When completed, the three kits will comprise individual two week study units of the three main Alaska Native cultures. The kits will be available to interested teachers of

Anchorage, Ft. Richardson and Elmendorf on a carefully scheduled basis.

The kits will also contain special guides for suggested class activities for both elementary and junior high use.

**FAIRBANKS TO HOST BASKETBALL TOURNEY**

**FAIRBANKS:** The Western Alaska High School Class A basketball tournament will be held in Fairbanks March 2-4.

Due to the limited housing available in the Fairbanks area, especially at tournament time, the four Anchorage high schools (this includes Chugiak) must restrict the number of students authorized to attend the tournament.

"While it is recognized that many students wish to go to the tournament it also must be recognized that school will be in session March 2 and 3," explained Gordon Guffey, secondary curriculum director. "The school district is prepared to authorize attendance at the tournament by team members and cheerleaders and will approve excused absences for those students who will be accompanied by their parents.

"No students will be allowed to attend without parental approval. The rules and regulations of the Western Alaska High School Activities Association stipulate that the individual schools must be responsible for the actions of their students attending the tournament as well as actual participants. Our schools cannot take the responsibility for the large numbers of students who may wish to attend the tournament."

Mr. Guffey said that unless accompanied by parents, students should not be allowed to travel in any chartered planes, buses or trains which may be organized for the tournament.

He added that special parental permission slips would be sent home to parents whose children will be authorized to attend as team members or cheerleaders. The school bands will not be authorized to attend the tournament.

He noted that the local restriction on tournament attendance by students occurs only once every four years under present arrangements. The tournament is held at Fairbanks only in the years it is not held at East, West or Dimond High School here in Anchorage.
