

NEW HIGH SCHOOL..... DOWN THE DRAIN

REV. RICHARD R. GAY, VICE PRESIDENT OF ABSD SCHOOL BOARD, GUEST SPEAKER AT DEDICATION OF BIRCHWOOD SCHOOL, MONDAY, JANUARY 15th, TELLS OF THE VITAL IMPORTANCE OF ELEMENTARY SCHOOL IN THE OVERALL EDUCATION PICTURE.

CHUGIAK: Hopes for a new high school for the Greater Chugiak Area went down the drain this week, with the refusal of the military to go along with plans to bus the students from the bases to the proposed Chugiak facility.

In a letter to Borough Assembly Chairman John Asplund, Lieutenant General R.A. Ereitweiser, Commander in Chief of the Alaskan Command explained the reasons behind this decision.

Ereitweiser told Asplund that both Major General J.T. Folda, Jr, Commander U.S. Army Alaska, and Major General T.E. Moore, Commander Alaska Air Command had individually communicated their strong opposition to this plan.

Further in the letter (the full text of which is printed elsewhere in this newspaper) The General offered alternate plans, both of which call for a high school to be constructed on land presently held by Elmendorf AFB and Fort Richardson in the vicinity of the Air Force Hospital. He proposed that this land could be made available to the Borough for the purpose of constructing a Borough high school that could provide for the student body from the two military installations plus a considerable number of students from the nearby civilian communities. He indicated that Federal participation in such a joint construction is possible. A second alternative he mentioned would be for an on-base high school to be constructed at this same site through the U.S. Office of Education. This would be able to serve only those students from the military installations.

Since the construction of a new high school in the Greater Chugiak Area was contingent on the willingness of the military to accept the plan, the GAAB School District is forced to abandon the plan in favor of a high school in the southeast part of the Borough where the projected student population has indicated the need is the greatest.

A spokesman for the School District indicated that they had some advance information as to the feelings of the military on the subject.

POSITIONS OPEN FOR HEAD START PROGRAM

CHUGIAK: G.O.A.L., Community Council will be taking applications for a Teacher Director for the Head Start Program to be offered in this area.

There will also be need for one Teacher Aide, and one Social Service Aide.

These positions must be filled as soon as O.E.O. in San Francisco Ok's the program. Anyone interested in applying for any of these positions should call Community Aide Kathy Walker at 688-5228 or 688-6365 for an appointment.

GIRL HURT WHEN SLIPPED IN PATH OF CAR

EAGLE RIVER: A Chugiak High School student suffered minor injuries when she tripped and fell in front of a car at mile 14 1/2 last Wednesday morning.

According to the Alaska State Troopers, Sandra Kay Larson, of the Lampost Apartments was running down an embankment in front of her home when she tripped.

She fell into a 1965 Volkswagen sedan driven by Neil McGregor Spenser of Anchorage, striking the hubcap of the right front wheel. The impact caused the girl to sustain bruises on her hip and dented the hubcap. She was transported to Providence by the Eagle River Volunteer Fire Company ambulance. No citations were issued.

PUBLIC MEETING TO AIR HIGH SCHOOL FUTURE

BIRCHWOOD: A public meeting has been scheduled for Thursday, January 18th, at 8pm to be held in the Multipurpose room of Chugiak High School.

The purpose of the meeting is to inform local residents of the reasons behind the change in plans to build the next borough high school in the Greater Chugiak Area.

Anchorage Borough School Superintendent, Dr. Carlisle H. Kramer, and some members of his staff will be present at the meeting, and will answer any questions and hear any suggestions offered.

All concerned local residents are urged to attend.

Chugiak, Ak

A FAMILIAR SITUATION

Local resident who will be attending the public meeting this Thursday to discuss with Borough School officials the future plans for Chugiak High School, will be experiencing a variety of emotions.

Those who were a part of the group that conducted Operation Chugiak High School will recognize something quite familiar about this meeting. Not too many years ago they met with these same gentlemen, or their predecessors and were told why in their opinion, the Chugiak Area did not need a high school. Now again, they will listen to reasons as to why the residents of this area do not need a new, larger high school.

When we read the reasons listed by General Breitweiser in his letter (published below) for not wanting to send the military students to a school in this area, they will sound very familiar indeed. We ourselves listed the very same reasons in the lengthy "OCHS Report", which was used to

convince the many public officials of the need for a high school in this area.

The School District Officials should have realized that the people of the Greater Chugiak Area would understand this kind of reasoning, and be more likely to accept it without too much grumbling, rather than any complicated excuses that might be offered.

(The Knik Arm Courier is publishing in it's entirety, the text of the letter from General Breitweiser to Chairman Asplund. This is for a dual reason. The importance of this matter to the local citizens, and to avoid any accusation of quoting out of context.)

Mr. John M. Asplund
Chairman GAAB
104 Northern Lights Blvd.
Anchorage, Alaska 99501

Dear Mr. Asplund:

Plans for the construction of a new high school at Chugiak, to serve the needs of that geographic area and to be the

school of assignment for on-base and on-post high school students from Elmendorf AFB AND Fort Richardson, have been brought to my attention. Major General J.T. Folda, Jr. Commander U.S. Army, Alaska, and Major General T. E. Moore, Commander Alaskan Air Command, have individually communicated their strong opposition to this plan, and I concur that there are valid objections.

School records show a total of 841 high school students from these two installations at the present time. By 1970 this figure will be in excess of 1000 due to housing to be constructed on the two installations and expected changes in force composition at Fort Richardson. There is a significant element of danger to these students in the planned daily bussing to and from school on a high speed arterial highway notorious for serious icing throughout the winter season. I am not in accord with planning which accepts this hazard, particularly when other more suitable and more economical alternatives are

available.

If our high school students were to be assigned to a future Chugiak High School, they would be almost totally excluded from extra-curricular academic, sports, and social activity is important in character development, particularly so for high school students. It is also an important criterion in the selection of competing applicants for acceptance by colleges and universities. I cannot agree to such a handicap for our dependents when other school opportunities could be developed.

I also note the plan to transport our high school students to the proposed Chugiak High School would involve a significant increase in en route travel time, requiring earlier departure and later return to the students homes. This is a factor that we could live with, if there were no alternatives. In this case, however, other suitable alternatives exist, and the proposal calls for an undesirable and

(cont page 3 col 1)

CARR'S

Little Midge

MUCH TOO SHORT!
You'll have to lengthen it at least three inches.

Heck... It'll look awful that long.

Mamma's right!
It's too short.

What do you know? You're such a square!

Well, at least I don't go around making a skeptical of myself!

(Cont page 2 col 4,

unnecessary load on the families involved.

In connection with the above, I would like to point out that we are concerned with in excess of 1000 military dependents, as of the pertinent time frame, and that the bussing of these students an excessive distance cannot avoid absorbing school funds needed for other uses. Bus cost factors for students being transported on a high speed arterial highway would be significantly higher than for intra-city transport. A suitable seat with safety belt for each student would govern the acceptable load to be carried. This extra cost is an important factor to be evaluated.

In light of the above, I request that the proposed Chugiak High School plans be reconsidered insofar as assignment of Elmendorf-Fort Richardson students is concerned, and that a more suitable and adequate plan be developed.

I am aware of your school expansion problems and would like to propose some alternatives to the present Chugiak school plan as it pertains to assignment of our children to the proposed Chugiak High School. First, and most desirable, would be the construction of a suitable high school facility on land presently held by Elmendorf AFB and Fort Richardson in the vicinity of the Air Force Hospital. This land could be made available to the Borough for this purpose. Such a Borough high school could provide for the student body from the two military installations plus a considerable number of students from the nearby civilian communities. Federal participation in such a joint con-

struction is possible. No specific statement can be made at this time, but we would offer all possible support to such an action. A second alternative would be for an on-base high school to be constructed at this same site through the U.S. Office of Education. This would, of course, serve only those students from the military installations. In the event we are unable to achieve the first alternative above, we will ask for your cooperation in accomplishing the second.

I also note with concern that school plans call for re assignment of Fort Richardson high school students from East High School to Dimond High School for the school year 1968-69, with subsequent reassignment planned in 1970. As you know, military dependents are normally involved in reassignments every three years, or more often, as national defense dictates. This is not desirable, but it must be accepted in the national interest. In addition, this change would require the Fort Richardson students to spend an additional 20 - 25 minutes each way on the buses. The proposed two relocations of Fort Richardson students between now and 1970 would be most disruptive to the students involved. It could well mean a different high school for each year of attendance! I am sure you will realize the extent to which this would handicap all aspects of the students' high school program. This change in schools plus excess bussing is an untenable situation. Because of this, I urge that a more suitable solution to the problem be sought. Perhaps

an appropriate solution to control the overflow population at East High would be to adjust the boundary line between East High and Dimond High.

I solicit your assistance and comments on the above problems. If I can provide additional information, or assist in any way, please let me know.

Sincerely,

R. A. Breiweiser
Lt. General USAF
Commander in Chief

LADIES CLUB MEETING POSTPONED

BIRCHWOOD: The meeting of the Chugiak Ladies Club, which was scheduled for this Thursday, January 18th, has been postponed.

The reason for the postponement was the conflict with a public meeting at Chugiak High School concerning school plans for this area.

The meeting of the Ladies Club has been rescheduled for the following Thursday, January 25th. It will be held at the home of Dee Steeby on Jayhawk Drive in Birchwood.

This will be the annual election of officers, and all members are reminded of the importance of attending.

MUSTANG EXPRESS
News and Activities of
Chugiak High School

EDITOR: Peggy Kerr

Future Teachers of America will show a movie entitled "Abbott and Costello Lost in Alaska", at 7:00pm on January 29th in the CHS multipurpose room.

Admission will be 50¢. Pre-schoolers must be accompanied by an adult or high school student. The community is invited to attend.

The Chugiak Mustangs hockey team lost against the tough opposition of the Dimond Lynx on Thursday. The final score was 16-1.

"Slave Day" sponsored by G.A.A. (Girls Athletic Association) was held Wednesday, Jan. 11.

"Slaves", (members of G.A.A.) were "owned" by anyone buying a 50¢ ticket and were required to perform many amusing stunts.

SPORTS EDITOR: Dave Towne

CHUGIAK LOSES TWO TO A TALL EAST SQUAD

Over the weekend the Chugiak Mustangs lost a pair of basketball games 75-56 and 71-62. East, probably the strongest team in Western Alaska, got out in front Friday with a 24-15 first quarter lead. East moved to a 39-26 lead at half time with Ty Settles scoring 13 points in that half.

Chugiak, on many occasions lost the ball on bad passes and fumbles which resulted in T-bird points. Scoring honor went to Jim Kohring, who scored 29 points, 19 in the second half. High for East was Ty Settles with 20 and Eddie Brown with 19.

The second night Chugiak looked much improved. During the first quarter almost every East shot was contested by a tough and alert Chugiak defense. East only made three buckets, while Chugiak recorded 7 in that quarter; which saw Chugiak take a 16 to 11 lead.

The second and third quarters, however, were dominated by East rebounding, and East scoring. Chugiak missed shot after shot and usually Ty Settles or Ed Brown grabbed the rebound for East. Chugiak was again guilty of poor passing, but by the end of the third quarter Chugiak ball handling was back in the groove. The score, however, was not on the Mustang's side as East held a commanding 50 to 31 lead. The fourth quarter was, however, a complete reversal of the second and third quarter. The Mustangs outplayed the East in all departments and ended up by outscoring the Thunderbirds 31 to 21. Chugiak, led by center Jim Kohring with 22 points, forwards Gary Sebolt and Steve Willis, with 13 and 18 points respectively and guard Louie Doores, with 8 points, took charge of rebounds at both ends of the court and scored almost at will. Chugiak has never seen a finer moment than the court play of that fourth quarter.

Next week the Mustangs play Dimond in a home and home series. Friday's game is at Chugiak, Saturday's game at Dimond.

MORE ON 3 CAR WRECK

FIRE LAKE: Additional information has been received on a three car accident which was described in last week's issue of the Knik Arm Courier.

Although the Alaska State Troopers had reported that there had been no injuries in the accident, a passenger in one of the vehicles, Mrs. Robert L. Brown, stated that she had in fact been injured.

The accident involved a collision between two vehicles a 1966 Chevrolet sedan and an Army truck. The vehicles were traveling in opposite directions when the collision took place. In the original report it was stated that the Chevrolet had skidded across the center line and struck the truck. The Alaska State Troopers said this week that they have not at this time determined which vehicle left its own lane of traffic, or if either did.

The damage sustained by the Chevrolet, according to the report of the Alaska State Troopers, was \$400.00. The Army truck appeared to be undamaged. A third car involved, a 1963 Mercedes sustained an estimated \$600 damage according to the State Troopers.

BLANKET GIVEN TO AMBULANCE

EAGLE RIVER: A grateful patient, who had been transported to the Hospital by the Eagle River Volunteer Fire Company Ambulance expressed her sentiments by presenting a new blanket to the ambulance.

Mrs. Robert L. Johnson, of 111 Colville St. in the Eagle River Heights subdivision, required the services of the ambulance when she was taken suddenly ill last month.

She noticed that the ambulance had only a few army blankets, and recalled being cold and uncomfortable on the trip in.

Last week, Mrs. Johnson presented a brand new pink blanket to the fire company as her way of saying "Thank You."

BASIC EDUCATION CLASSES TO START SOON

CHUGIAK: A new series of basic education classes is scheduled to be held in the Greater Chugiak Area beginning on January 22nd.

The classes will be held in the Chugiak Methodist Church three nights a week. The nights these classes are to be held will be arranged at the convenience of the students who sign up.

Registration for these classes will take place on January 17, 18 and 19 between 6:00pm and 10:00pm at West Anchorage High School.

These classes are not connected with the State Employment Office, and are open to any interested persons. There is a \$5.00 registration fee to cover the cost of books and other material.

The teacher for the class will be Mrs. Kathy Senor.

WEEK OF PRAYER FOR CHRISTIAN UNITY JAN 18-25

CHUGIAK: Several local churches will be observing "The Week of Prayer for Christian Unity" January 18 to 25th.

A special observance of this week will be held Wednesday evening, January 24th, at 7:30pm at the Monastery near Fire Lake in cooperation between St. Andrews Catholic Church and Chugiak Methodist Church.

Clergy and laymen from both churches will be present for scripture reading, prayer and discussion.

CAR FLIPS ON ICY CURVE

FT. RICHARDSON: Icy roads may have been the cause of a one car accident which took place on January 10th at 10:30 in the evening at mile 10 on the Glenn Highway.

According to the Alaska State Troopers, Sharon Ilene Panibrun of Anchorage was attempting to make the curve at mile 10, when she lost control of her 1965 GMC pick-up truck. The vehicle left the road and overturned. Neither the driver or the one passenger were injured.

Damage to the vehicle was estimated at \$1,000. No citations were issued.

OBEDIENCE CLUB TO ELECT OFFICERS

BIRCHWOOD: The Obedience Training Club of Chugiak will hold their annual election of officers on Monday, January 22nd.

The meeting will be held at the home of George Scott in Birchwood.

All members are urged to attend.

March of Dimes Physician Demands More Science in Choice of Spouse

No one wants to rule out romance as the lure that leads boy and girl along the happy highway to love and marriage. But science should also play an important part in selecting a life-long mate.

So argues Dr. David B. Shurtleff, well known as a researcher in pediatrics and medical director of the March of Dimes Birth Defects Center at the University of Washington School of Medicine, Seattle.

He feels more attention should be paid to the medical and genetic background of the boy who meets girl and vice versa. Today virtually the only medical test required for a marriage license in 46 of the 50 states is the Wassermann or some comparable test for syphilis.

Dr Shurtleff believes a lot more attention should be paid to family pedigrees, metabolic studies, chromosome analyses and any other laboratory procedures that might disclose, in prospective fathers and mothers, hidden physical and mental traits likely to cause the birth of defective infants.

"If we don't establish these tests—and I am talking about mandatory tests—we're only kidding ourselves when we talk about our 'enlightened society,'" he declares.

"We Americans say we are a sensible, realistic people. We cannot justify procreating, year after year, tens of thousands of babies who are crippled, mentally damaged or suffer from inborn errors of metabolism.

"Please note that I am not saying that a couple should be forbidden marriage if their genetic and other prospects are unfavorable. But I want this

YOUNG PATIENT is tested by Dr. David B. Shurtleff, medical director of March of Dimes Birth Defects Center at University of Washington School of Medicine, Seattle.

couple to know the unpromising odds, if these exist. Then, with their eyes open, they can decide to forget the whole thing, or marry and take their chances of having defective infants. They could also elect to adopt children.

"I believe that within a dec-

ade we will see certain states and various organizations embracing enlightened attitudes that will assist the medical profession in preventing certain catastrophic birth defects. For this I must pay tribute in part to the educational labors of the March of Dimes."

TIPS FOR MILADY

Here is a way you can send a beverage in your child's lunch even if you don't have a vacuum bottle.

Measure the correct amount of powdered milk, chocolate drink, or powdered fruit drink onto a square of foil. Pack this with a plastic spoon in a paper cup in his lunch sack.

He can then mix it either with hot or cold water at school.

ENTRY BLANKS FOR OBEDIENCE TRIAL AVAILABLE

CHUGIAK: Local owners of obedience trained dogs are advised that entry blanks for the 28th Obedience Trials, sponsored by the Obedience Training Club of Anchorage, are now available.

These may be picked up at any of the Anchorage Veterinarians or locally at Birchwood Kennels.

Those wishing to enter may enroll their dogs in brush up training which will be held in conjunction with the regular obedience training classes which start this Sunday at 6pm at the Chugiak Community Hall at mile 21.

CORDOVA SITE OF MEN'S BOWLING TOURNAMENT

CORDOVA: The date for the 10th Annual State Men's Bowling Tournament is drawing near. Entry forms for bowlers have been distributed to every bowling alley or association officers in every city in the state, according to Ken Van Broncklyn, Tournament director.

Cordova was selected for this year's State Tournament and promises to be one of the best. Cordova has always been the home of the Iceworm Bowling Tournament which has drawn bowlers all over the state. The Iceworm Tournament will again be held this year, but has been shortened due to the length of the state tournament. The dates for the Iceworm will be February 3, 4, through February 11, 12. The dates for the State Tournament will be February 28 through March 24th. Accommodations in Cordova are good, with four hotels, and one motel to house the bowlers. Transportation from the airport will be in private cars, courtesy of the Cordova Bowling Association.

Cordova's business district suffered a disastrous fire on May of 1963 burning down 75 percent of it. Then the Good Friday Earthquake took out the entire boat harbor. Since this time, Cordova has rebuilt this entire business district and complete new harbor. It is said to be the finest in Alaska.

Cordova has always been referred as the 'Friendly City', and all bowlers attending the 10th Annual State Tournament are promised to have a good time.

BIRCHWOOD: The Northern Lights 4H Club gave a Xmas party and exchange of gifts on December 28th at the home of their leader Mrs. Ada Anderson.

The gifts were placed under the Xmas tree and Tommy Boyles acted as Santa Claus; and passed the fits to each member. They played different games.

Mrs. Joyce Boyles the mother of Tommy Boyles was present. Every one enjoyed the party.

TV 4H CLUB TO BE OFFERED

CHUGIAK: Interested youngsters may take part in 4H Club activities without leaving their own living rooms, thanks to the magic of television.

The 4H TV Action Club, will run for ten weeks starting Saturday, January 20th on Channel 11. The program will be shown every Saturday at this time for the duration of the series.

The program will deal mainly with how to cope with emergencies. Youngsters who wish to participate may obtain membership applications at their schools.

WINTER CARNIVAL POSTPONED

OLD CHUGIAK: The Winter Carnival, sponsored by the Chugiak and Birchwood Elementary School P.T.A.'s was postponed last Saturday.

Leo Powell, of the Carnival Committee said the postponement was decided upon due to the extremely cold weather and the wind.

The Carnival has been rescheduled for Saturday, January 27th. The same schedule of events published for the original date will be observed.

LIONS MAINTAIN SKATING AREA

FIRE LAKE: The Chugiak Lions Club is maintaining a skating area at the north end of Lower Fire Lake this winter.

The Lions are keeping the snow scraped from the ice so that the youth of the area may enjoy this popular winter sport.

OBEDIENCE CLASSES TO START SUNDAY

OLD CHUGIAK: Classes in obedience training for dogs will start on Sunday, January 21st at the Chugiak Community Hall at mile 21, Glenn Highway.

Sponsored by the Obedience Training Club of Chugiak, the ten week course is open to all dogs, pure bred or not.

A registration fee of \$15 is the only charge for the course. Classes will be held every Sunday at 5:30pm until the course is completed. A graduation test will be given to all participants at the end of the course, and ribbons and trophies given to the highest scoring dogs.

Anyone wishing to enroll may call either 694-2761 days, or 688-2137 evenings or show up at the hall on Sunday with their dog to register. It is suggested that on the first day, (Jan 21st) those who plan to register arrive at 5:15.
