#### SORRY ABOUT THAT

As our readers must have guessed by the appearance of the inside pages of last weeks issue of the Courier, we suffered a breakdown of our equipment last Wednesday.

We were faced with the decision of finishing the run on our old broken down stand-by printer, or missing our deadline completely.

If some parts of your copy were hard to read, we are sorry about that. The problem has been solved, and (hopefully) this week's issue is once again up to standard. Some portions of the last issue that were blurred and hard to read (such as the "Midge" comic) we will rerun this week.
